

**TRENCH SAFETY ADDENDUM**

Any trench safety excavation having a depth in excess of five (5) feet will be subject to the Excavation Safety Standards established by the Occupational Safety and Health Administration, 29.C.F.R. s. 1926.650 Subpart P.

By the signature of its undersigned authorized representative, the Bidder hereby assures the Owner that any such excavation performed by the Bidder will be performed in compliance with all applicable trench safety standards.

The cost of compliance with applicable trench safety standards is to be included in the amount of base bid.

The specific methods of compliance with applicable Trench Safety Standards, and the cost of compliance are as follows:
