### COURSE REQUEST

Home Education, Virtual Instruction Program and Private School students are eligible to participate in extracurricular activities as well as curricular courses required to participate in the extracurricular activity at the public school to which the student would be assigned according to district school board attendance area policies or which the student could choose to attend pursuant to §1002.31. During the period of participation at a school, the student must demonstrate educational progress as required in all subjects by a method of evaluation agreed upon by the parent and the school district. The student must meet the same standards of acceptance, behavior, and performance as required of other students in extracurricular activities. The student must register his or her intent to participate in interscholastic extracurricular activities as a representative of the school before participation. Any student who has been unable to maintain academic eligibility for participation in interscholastic extracurricular activities is ineligible to participate in such activities until the student has successfully completed one grading period to become eligible to participate.

The information must be submitted each academic year in which a student wishes to enroll.

Please indicate the activity, curricular course title(s), school year, and term for which you are requesting enrollment.
