Skills Camp
July 8-11
9:00 a.m.-12:00 p.m.

About the Camp

This camp offers participants an opportunity for individual skills and team skills improvement. Individual skills taught will include passing, setting, hitting, serving, blocking, and digging. Team skills will include serve reception, offense, defense, and attack coverage. There will be individual drills, group drills, games, small group, and full court lead up competitions.

Each participant will be evaluated and placed into appropriate skill level divisions based on their experience and level of play. The camp will be beneficial to all participants from novice to expert players.

This camp will focus on fundamental volleyball skills taught in a fun and safe environment. Our goal is to improve each participant with an increase of volleyball knowledge and an increased confidence in their playing ability.

To maintain an optimal instructor-to-camper ratio, the camp will be limited to the first 36 registrants.

Additional Information

AGE: Participants must be entering the 6th to 9th grades in the fall of 2024

STAFF: The camp's staff will include the West Florida High School volleyball program coaching staff, and current and former West Florida High School volleyball players.
