

Escambia County School District
Authorized Inflatable Companies
2023-24 School Year

*Inflatables with high slides 10' and over (both wet and dry) are **NOT** allowed on campus or as an approved school event.*

*We are finding that some schools may be doing business with inflatable companies that do not maintain liability insurance placing the District at risk for injury claims and lawsuits. **Please make sure that school staff, parent volunteers, or PTA representatives are contacting you as principal to make sure that you are only using District approved inflatable vendors that: 1) have provided the District with the required insurance coverage, and 2) are only using units that have been approved by the Risk Management Department.***
