The SubProject component represents the fiscal year of the project. In Skyward, the subproject number is 5 digits long with the $5^{\text {th }}$ digit being a zero.
-Example: In our current system, a project with a " 2 " in the last digit of the project number $=20120$ in the subproject field in Skyward

For projects that typically have a " 0 " year code, the subproject will remain all zeros; however, there are a few projects that have a " 0 " year code which signifies a 2010 year project, and in Skyward, these projects have been converted to 20100 in the subproject field.
-Example: In our current system, a project with a " 0 " in the last digit of the project number $=00000$ in the subproject field in Skyward (20100 for a few select projects).
