MALCOLM THOMAS, SUPERINTENDENT

December 13, 2019

To the Honorable Members of the District School Board of Escambia County and the Citizens of Escambia County, Florida

State law requires that all local governments publish, after the close of each fiscal year, a complete set of financial statements presented in conformity with accounting principles generally accepted in the United States of America (GAAP), and audited in accordance with auditing standards generally accepted in the United States of America. Pursuant to this requirement, we hereby issue the comprehensive annual financial report (CAFR) of the District School Board of Escambia County, Florida (District) for the fiscal year ended June 30, 2019.

This report consists of management's representations concerning the finances of the District. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management has established a comprehensive internal control framework that is designed both to protect the District's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the District's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the District's framework of internal controls has been designed to provide reasonable, rather than absolute, assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The District's financial statements have been independently audited by Moore Stephens Lovelace CPAs. The goal of the independent audit is to provide reasonable assurance that the financial statements of the District for the fiscal year ended June 30, 2019, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the District's basic financial statements for the fiscal year ended June 30, 2019, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

The independent audit of the financial statements of the District was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1996 and the United States Office of Management and Budget (OMB) Title 2 U.S. Code of Federal Regulations, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.* The standards governing Single Audit

engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. A separate report related to this single audit, including the schedule of expenditures of federal awards, findings and questioned costs, and independent auditor's report on the system of internal control and on compliance with applicable requirements, are included in the Single Audit Section.

This report includes all funds of the District, The Escambia County Public Schools Foundation for Excellence, Inc. (the Foundation), and charter schools, which comprise the reporting entity. The Foundation is a separate not-for-profit corporation organized and operated as a direct-support organization. The Foundation's purpose is exclusively educational and charitable for the constituents of Escambia County. Charter schools are public schools operating under performance contracts with the District's governing board (Board). The Foundation and the applicable charter schools are included as discretely presented component units in the accompanying financial statements.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The District's MD&A immediately follows the independent auditor's report.

Profile of the District

The District and its Board were created pursuant to Article IX, Section 4 of the Constitution of the State of Florida. The District is an independent taxing and reporting entity managed, controlled, operated, administered, and supervised by the District school officials in accordance with Chapter 1001, Florida Statutes. The Board consists of five elected officials responsible for the adoption of policies, which govern the operation of District public schools. The elected Superintendent of Schools (Superintendent) is the executive officer of the Board and is responsible for the administration and management of the schools within the applicable parameters of Florida Statutes, State Board of Education (SBE) Rules, and Board policies. The Superintendent is also specifically delegated the responsibility of maintaining a uniform system of financial records and accounts for the District by SBE Rule 6A-1.001, Florida Administrative Code.

The geographic boundaries of the District are those of Escambia County. During the 2018-19 fiscal year, the District operated 62 schools, special centers, and other programs, including 32 elementary schools, 9 middle schools, 7 high schools, 4 special centers, and 10 other programs. These totals include two new schools that were opened for the 2018-19 fiscal year – an elementary school and a middle school. The District also has 5 charter schools that are component units of the District (one charter school had closed at the end of the prior fiscal year). In addition, the District provides on-line learning opportunities through its virtual education offerings.

District school facilities vary greatly in age. Year of occupancy for elementary schools range from the year 1936 to 2018; middle schools range from 1953 to 2018; and high school facilities range from 1949 to 1993.

The District receives the majority of its operating funds through a State funding formula that is intended to equalize funding received from the State and local property tax between districts within the State. Charter schools operating through a contract with the District are provided with their proportionate share of these funds, based upon the number of full-time equivalent students enrolled at the charter school.

The District's general fund financial condition ratio at June 30, 2019, was 9.7 percent, well above the minimum statutory requirement of 3 percent (local board requirement is 3.5 percent). The financial condition ratio is calculated by dividing the combined assigned and unassigned fund balance by total general fund revenue. The financial condition ratio is an indication of the district's level of liquidity and excess operating reserves compared to the above referenced benchmark requirements.

During the 2018-19 fiscal year, the District provided general, special, vocational, and other education programs to 39,620 unweighted full-time equivalent students (UFTE), a decrease of 187 UFTE over the prior fiscal year (39,807). Based on forecasting models, the District projects its 2019-20 student membership to further decrease in number to 39,365 UFTE which represents a decline of 255 UFTE from the 2018-19 fiscal year.

For budgeting purposes, the Board follows procedures established by Florida Statutes and the SBE rules in establishing and adopting annual budgets for each of the governmental fund types.

Economic Condition and Outlook

Escambia County, located in the northwestern part the State, was established July 21, 1821, as a non-charter government when the Provisional Governor Andrew Jackson signed an ordinance making the County one of the first two counties in Florida, the other being St. John's County. There are two municipalities within the County, the City of Pensacola, which is the County seat, and the Town of Century.

Escambia County encompasses approximately 661 square miles, or 420,480 acres, with an additional 64,000 acres of water area and serves a population of approximately 318,560. The population has increased by approximately 20,596 or 6.9 percent over the last 10 years (297,964). The statewide increase during that period has been approximately 14.9 percent. The Escambia county unemployment rate has decreased from 3.9 percent a year ago to 3.5 percent in June 2019.

Local sales tax revenues continue to increase on a yearly basis. Current year receipts totaled \$28.2 million which was a 5.6 percent increase over the 2017-18 fiscal year (\$26.7 million). In addition, school taxable property values in Escambia County grew 7.6 percent over the same period.

Per pupil funding for the Escambia County School District was \$7,285 per UFTE, an increase of 2.5 percent over the 2017-18 fiscal year (\$7,109). The funding formula is made up of both state and local revenue as required by the Florida Education Finance Program (FEFP). The FEFP is composed of several funding components including local ad valorem taxes and state categorical programs.

The total fund balance of the District's General Fund decreased by \$1,050,962 from the 2017-18 fiscal year. This indicates that operating funds were insufficient to cover required expenditures.

Major Initiatives

Section 212.055(6), Florida Statutes, authorizes local school boards the ability to levy a one-half cent School Capital Outlay Sales Surtax (sales surtax). The Escambia County School District currently has a ten year referendum in place based on voter approval in the November 2014 general election. The current term began in January 2015 and is a renewal of a prior ten year referendum. Accordingly, the District issued Sales Tax Revenue Bonds in January 2016 for construction of a new middle school. The school was placed into service for the start of the 2018-19 school year. In

addition, various remodel/renovation projects at other school facilities were part of the overall plan for the bond proceeds. The debt service period on the bonds extends through December 31, 2027; the life of the referendum.

District opened a newly constructed elementary school to address similar overcrowding concerns. The new elementary school was built on a pay-as-you go basis and utilized cash reserves from local sales tax revenue. One hundred percent of the District's sales tax funds are used for new construction, renovations, and certain retrofit projects for its school facilities.

Financial Information

<u>Internal Controls</u> Management of the District is responsible for establishing and maintaining internal controls designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. Internal control is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

<u>Budgetary Controls</u> The District maintains budgetary controls, the objective of which is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Board. Activities of all governmental fund types are included in the annual appropriated budget. The level of budgetary control (that is the level at which expenditures cannot exceed the appropriated amount) is established at the object level.

Budgetary information is integrated into the accounting system and, to facilitate budgetary control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent fiscal year's appropriations. In order to provide budgetary control for salaries, the District utilizes a centralized position control system. On an annual basis, the Board adopts a District staffing plan that establishes teacher positions based generally on student populations served. Additionally, support and administrative positions are created based on established criteria.

Long-Term Financial Planning

General Operating The District's financial objectives for general operating revenue may be summarized as follows: (1) provide for adequate classroom resources and operational support to accomplish curriculum and instructional goals, (2) provide for competitive salary and benefits program for all employees, and (3) maintain adequate fund balance consistent with School Board policy.

<u>Facilities</u> The District currently benefits from a 10-year, 0.5 percent school capital outlay sales surtax authorized under Section 212.055(6), Florida Statutes. This 10-year levy is in effect until December 31, 2027 and is the source of funds for nearly all new construction and major remodel and renovation projects.

Awards and Acknowledgments

The District's CAFR for the fiscal year ended June 30, 2018, received the following awards:

- The Certificate of Achievement for Excellence in Financial Reporting from the Government Finance Officers Association (GFOA).
- The Certificate of Excellence in Financial Reporting from the Association of School Business Officials (ASBO).

This was the eleventh consecutive year that the District's CAFR has been so recognized and demonstrates the District's commitment to transparency for the benefit of the taxpayers of Escambia County. The District will also submit the current 2018-19 CAFR for such consideration.

The timely preparation of this report was made possible by the dedicated service of the entire staff of the Finance and Business Services department. Each member of the department has our sincere appreciation for the contributions made in the preparation of this report.

In closing, we would like to thank the members of the School Board for their leadership and support in planning and conducting the financial operations of the District.

Respectfully submitted,

Malcolm Thomas

INDEPENDENT AUDITOR'S REPORT

Chairman and Members of The District School Board of Escambia County, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Escambia County, Florida (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Charter Schools or Escambia Schools Foundation, Inc., which comprises 100 percent of the assets, net position, and revenues of the discretely presented component units of the District. Those financial statements were audited by other auditors, whose reports have been furnished to us and, our opinion, insofar as it relates to the amounts included for the discretely presented component units, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT (Continued)

Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to in the first paragraph present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, and the budgetary comparison for the general fund and major special revenue funds for the fiscal year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, OPEB Schedule, and Pension Schedules, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements as a whole. The introductory section, combining and individual major and non-major fund financial statements and schedules, and statistical section, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the financial statements.

The combining and individual major and non-major fund financial statements and schedules are the responsibility of management and were derived from, and relate directly to, the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual major and non-major fund financial statements and schedules are fairly stated, in all material respects, in relation to the financial statements as a whole.

The introductory section and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

INDEPENDENT AUDITOR'S REPORT (Concluded)

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 13, 2019, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the District School Board of Escambia County, Florida (District) has prepared the following discussion and analysis to provide an overview of the District's financial activities for the fiscal year ended June 30, 2019. The information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions and should be considered in conjunction with the District's financial statements and notes to financial statements found immediately following the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2018-19 fiscal year are as follows:

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows at June 30, 2019, by \$284.4 million (net position).
- The District's total net position decreased by \$0.4 million from the prior fiscal year (\$284.8 million). The decrease is primarily due to the accrual of property tax refunds, in accordance with GASB Statement No. 56 (Subsequent Events), resulting from litigation between Pensacola Beach Leaseholders and the Escambia County Tax Collector (See Note 20).
- At June 30, 2019, the combined assigned and unassigned fund balance for the General Fund was \$29.6 million, or 9.7 percent (Financial Condition Ratio) of total General Fund revenues. These totals represent decreases of \$3.1 million and 1.2 percent, respectively from the prior fiscal year.
- ➤ The District's total long-term debt (Bonds Payable and Certificates of Participation) was \$64.8 million, a decrease of \$9.2 million from the prior fiscal year (\$74 million) due to the reduction of principal via normal debt service requirements.

OVERVIEW OF FINANCIAL STATEMENTS

The basic financial statements consist of three components:

- ➤ Government-wide financial statements.
- > Fund financial statements.
- Notes to financial statements.

This report also includes supplementary information intended to furnish additional details to support the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements provide both short-term and long-term information about the District's overall financial condition in a manner similar to those of a private-sector business. The statements include a statement of net position and a statement of activities that are designed to provide consolidated financial information about the governmental activities of the District presented on the accrual basis of accounting. The statement of net position provides information about the District's financial position, its assets, liabilities, and deferred outflows/inflows of resources, using an economic resources measurement focus. Assets plus deferred outflows of resources, less liabilities and deferred inflows of resources, equals net

position, which is a measure of the District's financial health. The statement of activities presents information about the change in the District's net position, the results of operations, during the fiscal year. An increase or decrease in net position is an indication of whether the District's financial health is improving or deteriorating.

All of the District's activities and services are reported in the government-wide financial statements as governmental activities. The District's governmental activities include instruction, student support services, instructional support services, administrative support services, facility maintenance, transportation, and food services. Property taxes and State revenues finance most of these activities. Additionally, all capital and debt financing activities are reported as governmental activities.

The government-wide statements present the District's activities in two categories:

- ➤ Governmental activities This represents most of the District's services, including its educational programs: basic, vocational, adult, and exceptional education. Support functions such as transportation and administration are also included. Local property taxes and the State's education finance program provide most of the resources that support these activities.
- ➤ Component units The District presents aggregate financial information for the following six separate legal entities in this report: Capstone Academy Pensacola, Jacqueline Harris Preparatory Academy, Beulah Academy of Science, Inc., Byrneville Elementary School Inc., Pensacola Beach Elementary School, Inc., and the Escambia County Public Schools Foundation For Excellence, Inc.

Each school is considered to be a component unit of the District due to the following criteria:

- 1. The District is financially accountable for each school.
- 2. Each school was established based on school board approval of the charter (which is tantamount to the initial appointment of the charter schools)
- 3. There is potential for each charter school to impose specific financial burdens on the District.

In addition, pursuant to the Florida Constitution, the charter schools are public schools and the District is responsible for the operation, control, and supervision of public schools within the District. Financial information for these component units is reported separately from the financial information presented for the primary government.

Blended Component Unit - The Escambia School District Employee Benefit Trust (Trust) was established to administer the District's employee life, health, and dental insurance programs. The Escambia County District School Board exercises significant oversight responsibility over the Trust, and all activities of the Trust are solely for the benefit of the District and its employees. Therefore, the financial activities of the Trust have been included (blended) as an integral part of the primary government.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide more detailed information about the District's financial activities, focusing on its most significant or "major" funds

rather than fund types. This is in contrast to the entity wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of the broad categories discussed below.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, the governmental funds utilize a financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. The financial resources measurement focus allows the governmental fund financial statements to provide information on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in assessing the District's near-term financing arrangements.

The governmental fund statements provide a detailed, short-term view that may be used to evaluate the District's near-term financing requirements. This short-term view is useful when compared to the long-term view presented as governmental activities in the government-wide financial statements. To facilitate this comparison, both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation of governmental funds to governmental activities.

The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General Fund, Special Revenue – Other Federal Programs Fund, Capital Projects – Local Capital Improvement Fund, and the Capital Projects – Other Fund. Data from the other governmental funds are combined into a single, aggregated presentation.

The District adopts an annual appropriated budget for its governmental funds. Budgetary comparison statements have been provided for the General Fund and the Special Revenue – Other Federal Programs Fund to demonstrate compliance with the budget.

<u>Proprietary Funds</u>. Proprietary funds, including internal service funds, may be established to account for activities in which a fee is charged for services. Internal service funds are used to report activities that provide goods and services to support the District's other programs and functions through user charges. The District uses the internal service funds to account for risk management and employee benefits activities. Since these services predominantly benefit governmental rather than business-type functions, the internal service funds have been included within governmental activities in the government-wide financial statements.

The internal service funds are combined into a single, aggregated column in the proprietary fund financial statements.

<u>Fiduciary Funds</u>. Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide financial statements because the resources are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these

funds are used only for their intended purposes. The District uses agency funds to account for resources held for student activities and groups and to account for the resources of the District's pre-tax flexible benefits plan.

Notes to Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the District's progress in funding its obligation to provide other postemployment benefits to its employees and required supplementary information concerning the District's liability and required contributions to the state retirement system.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Net position over time may serve as a useful indicator of a government's financial health. The following is a summary of the District's net position as of June 30, 2019, compared to net position as of June 30, 2018:

Net Position, End of Year

		Governmental			
		Activities			
	6-30-19			6-30-18	
Current Assets	\$	205,357,796	\$	206,489,665	
Capital Assets		399,049,473		396,920,985	
Total Assets		604,407,269		603,410,650	
Deferred Outflow of Resources		86,051,350		88,433,713	
Total Assets and Deferred Outflow of Resources	\$	690,458,619	\$	691,844,363	
Long-Term Liabilities	\$	352,388,174	\$	367,875,054	
Other Liabilities		21,141,734		20,076,523	
Total Liabilities		373,529,908		387,951,577	
Deferred Inflow of Resources		32,525,197		19,079,276	
Net Position:					
Net Investment in Capital Assets		343,230,615		341,718,135	
Restricted		115,734,971		105,923,265	
Unrestricted (Deficit)		(174,562,072)	-	(162,827,890)	
Total Net Position		284,403,514		284,813,510	
Total Liabilities, Deferred Inflow of Resources,					
and Net Position	\$	690,458,619	\$	691,844,363	

The largest portion of the District's net position, \$343.2 million, is its investment in capital assets (e.g., land, construction in progress, buildings, improvements, equipment, motor vehicles, computer software, and audio visual materials), less any related debt still outstanding. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the investment in capital assets is reported net of related debt, the resources used to repay the debt must be provided from other sources since the capital assets cannot be used to liquidate these liabilities.

The restricted portion of the District's net position, \$115.7 million, represents resources that are subject to external restrictions on how they may be used. The deficit unrestricted net position of \$174.6 million was mainly due to the accrual of net pension liability totaling \$206.2 million. The District reported net pension liability according to the requirements of GASB Statement No. 68 – Accounting and Reporting for Pensions.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2019, and June 30, 2018, are as follows:

Operating Results for the Year

Governmental Activities decreased the District's net position by \$0.4 million.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

Major Governmental Funds

General Fund. The General Fund is the District's chief operating fund. The assigned and unassigned fund balance at June 30, 2019, is \$29.6 million, while the total fund balance is \$44.1 million. The assigned and unassigned fund balances decreased by \$3.1 million, while the restricted fund balance increased by \$2.0 million. The net result was a total fund balance that decreased by \$1.1 million during the fiscal year. Key fund balance performance indicators are as follows:

- Restricted categorical FEFP revenue increased significantly due to state required school safety and mental health legislation. Unspent funds, specifically for the new Safe Schools and Mental Health allocations, created an increase in those restricted carryforward balances over the prior fiscal year.
- ➤ Due to the timing of categorical textbook purchases, the carryforward balances of these restricted, unspent funds increased over the prior year.
- > Salary increases were negotiated and paid to eligible employees. Salary increases have a negative affect mainly on unassigned fund balance.

<u>Special Revenue – Other Federal Programs Fund</u>. The Special Revenue – Other Federal Programs Fund had revenues and expenditures of \$31.6 million each. This is an increase over the prior fiscal year of \$1.6 million due mainly to Title I grants to schools in need of improvement as identified by the Florida Department of Education Funds are typically recorded as revenue when expended.

Capital Projects – Local Capital Improvement Fund. The Capital Projects – Local Capital Improvement Fund accounts for the revenue and expenditures associated with the District's ad valorem tax receipts generated through the discretionary capital outlay millage. The District is authorized to levy up to 1.5 mills for capital projects such as construction, technology, school bus purchases, and repair and maintenance of facilities. Other uses include, if eligible, payment of property and casualty insurance and debt service requirements. At June 30, 2019, the fund balance totals \$5.5 million and is restricted for eligible capital outlay purposes.

<u>Capital Projects – Other Fund</u>. The Capital Projects – Other Fund has a fund balance of \$69.4 million for the 2018-19 fiscal year. The fund balance decreased from the prior year by \$2.7 million due to ongoing construction programs at the various school sites.

The original net proceeds of the bond issue totaled \$60 million and has a remaining balance of \$9.6 million at June 30, 2019 (a decrease of \$7.2 million during the 2018-19 fiscal year.

GENERAL FUND BUDGETARY HIGHLIGHTS

Actual revenues were less than final budgeted revenues by \$607 thousand, most of which (\$476 thousand) was from state sources.

Actual expenditures were \$15.3 million less than final budgeted expenditures. The instruction function accounted for \$6.3 million of this variance due mainly to contingency reserves and various unfilled classroom teaching positions during the year.

CAPITAL ASSETS AND LONG-TERM DEBT

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2019, amounts to \$399 million (net of accumulated depreciation). This investment in capital assets includes land; construction in progress; improvements other than buildings; buildings and fixed equipment; furniture, fixtures, and equipment; motor vehicles; and audio visual materials and computer software. The District's investment in capital assets (net of accumulated depreciation) for the current fiscal year increased \$2.1 million (less than 1 percent).

Major construction projects initiated, continued, or completed during the current fiscal year included the following:

- Roofing projects at various District locations.
- ➤ Roy Hyatt Environmental Center Facility rebuild.
- ➤ Oakcrest Elementary School Covered play area.
- ➤ West Pensacola Elementary School Covered play area.
- > Woodham Middle School facility repurpose (future West Florida High School).
- > Installation and renovation of mechanical and life safety systems.
- ➤ New Construction Site preparation for future elementary school
- ➤ New Construction Kingsfield Elementary School.
- New Construction Beulah Middle School.
- West Florida High School repurpose for special program.
- ➤ Brentwood Elementary School Covered play area.
- Escambia Westgate Covered play area
- ➤ Tate High School Chiller.
- ➤ Brown Barge Middle School Gymnasium and track facility.
- > Security System upgrades at various locations.

Additional information on the District's capital assets can be found in Notes 6 and 13 to the financial statements.

Long-Term Debt

At June 30, 2019, the District has total long-term debt outstanding of \$64.8 million. The District has \$1.5 million outstanding of State School Bonds issued by the State Board of Education (SBE) and backed by the full faith and credit of the State of Florida. Certificates of Participation outstanding total \$14.5 million and the remainder of the long-term debt is made up of Sales Tax Revenue Bonds, Series 2016, which have an outstanding balance of \$48.8 million at June 30, 2019

Additional information on the District's long-term debt can be found in Notes 8 through 10 to the financial statements.

ECONOMIC FACTORS AFFECTING 2018-19 FISCAL YEAR BUDGETS AND RATES

These factors were considered in preparing the District budget for the 2019-20 fiscal year:

Funding for Student Enrollment

The District receives the majority of its general operating funds through the Florida Education Finance Program (FEFP). The funds are based on the number of full-time equivalent (FTE) students and is a combination of state and local revenue. Key issues related to the proposed 2019-20 FEFP funding formula over the current 2018-19 fiscal year include:

- > The District projects a decrease of 220 unweighted FTE students to begin the new fiscal year.
- > FEFP formula funds will increase \$299 per unweighted FTE over the 2018-19 fiscal year (4.1 percent).
- Total increase in formula funds will be approximately \$10.2 million over the prior year. Of the total, two new categorical earmarks account for \$6.6 million of the increase (Best and Brightest Teacher/Principal Allocation \$3.8 million for bonus payments to targeted personnel meeting appropriate criteria and Turnaround Supplemental Services Allocation \$2.8 million for state identified struggling schools).

General Fund – Fund Balance

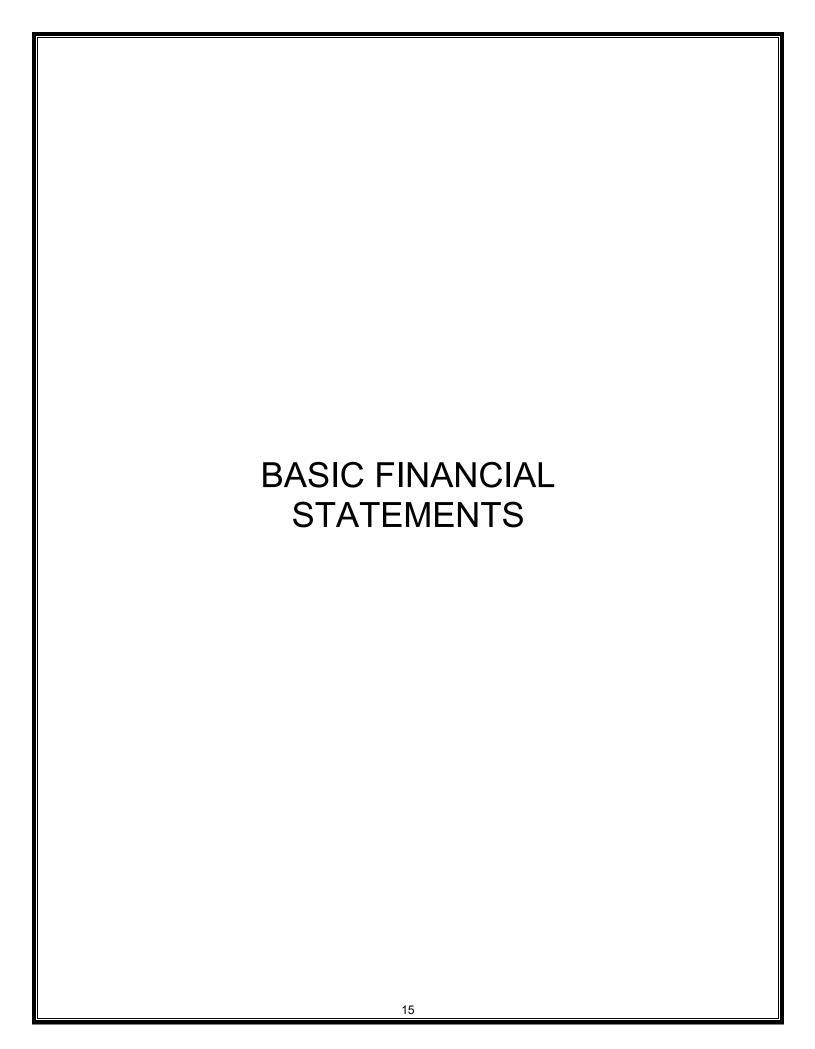

The District will budget approximately \$1.9 million of total fund balance to cover planned expenditures during the 2019-20 fiscal year. Any unspent appropriations and/or revenue receipts in excess of budgeted amounts will be used to replenish the unassigned fund balance accordingly.

Expected Cost Increases

The District will plan for major increases in certain operating expenditures to include campus security officers, potential salary increases and associated benefits such as retirement contributions, health insurance costs, and wellness benefits to offset medical inflation.

REQUESTS FOR INFORMATION

Questions concerning information provided in the MD&A, and financial statements and notes thereto, or requests for additional financial information should be addressed to the Assistant Superintendent - Finance and Business Services, District School Board of Escambia County, 75 North Pace Boulevard, Pensacola, Florida 32505.

DISTRICT SCHOOL BOARD OF ESCAMBIA COUNTY, FLORIDA RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2019

	142,603,581
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets, net of accumulated depreciation, used in governmental activities are not financial resources and, therefore, are not reported as assets in the governmental funds.	399,049,473
Internal service funds are used by management to charge the costs of certain activities, such as insurance, to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the statement of net position.	12,640,890
Long-term liabilities are not due and payable in the current fiscal year and, therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at fiscal year-end consist of:	
Bonds Payable \$ (43,628,000) Less: unamortized premiums on bonds payable (6,668,598) Certificates of Participation Payable (13,475,000) Less: unamortized premiums on certificates of participation payable (1,073,717) Compensated Absences Payable (40,091,987) Net Pension Liability (206,221,638) Other Postemployment Benefits (12,257,643)	(323,416,583)
Deferred inflows of resources related to the deferred amount on refunding are applicable to future periods and, therefore, are not reported in the governmental funds.	
Deferred Gains on Refunding - Bonds Payable (13,000) Deferred Gains on Refunding - Certificates of Participation Payable (857,142)	(870,142)
Deferred outflows of resources and deferred inflows of resources related to pensions and other postemployment benefits are applicable to future periods and, therefore, are not reported in the governmental funds.	
Deferred Outflows Related to Pensions 84,173,680 Deferred Inflows Related to Pensions (27,877,689) Deferred Outflows Related to Other Postemployment Benefits 1,877,670 Deferred Inflows Related to Other Postemployment Benefits (3,777,366)	54,396,295

DISTRICT SCHOOL BOARD OF ESCAMBIA COUNTY, FLORIDA RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE FISCAL YEAR ENDED JUNE 30, 2019

Net Change in Fund Balances - Governmental Funds	\$	(6,073,206)
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount of capital outlays in excess of depreciation expense in the current fiscal year.		
Capital Outlay - Facilities Acquisition and Construction - Capitalized \$ 9,216,113 Capital Outlay - Other Capital Outlay - Capitalized 6,981,585 Less, Depreciation Expense (12,918,070	;	3,279,628
The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net position differs from the change in fund balances by the cost of assets sold.		(1,151,139)
Debt proceeds are reported as financial resources in governmental funds and thus contribute to the change in fund balance. However, in the statement of net position, issuing debt increases long-term liabilities and does not affect the statement of activities. Similarly, payments to escrow agents are reported as financial uses in the governmental funds but reduces the liability in the statement of net position. Repayment of principal is an expenditure in the governmental funds, but reduces the liability in the statement of net position. These are the debt refunding and principal payments for the current fiscal year:		
Bond Repayments 3,939,000 Certificate of Participation Repayments 4,075,000		8,014,000
Premiums associated with long-term debt issued in the current fiscal year are reported in the statement of activities, but are not a current financial resource and, therefore, are not reported in governmental funds. This is the decrease in deferred premiums during the current fiscal year:		
Bonds Payable 769,777 Amortization of deferred charges and gain on refunding, net 2,600 Certificates of Participation Payable 357,905 Amortization of deferred charges and gain on refunding, net 285,714) ;	1,415,996
In the Statement of Activities, pension expense is recorded for the District's proportionate share of collective pension expense of the cost sharing defined benefit plans in which the District participates. Also included in pension expense are amounts required to be amortized in accordance with GASB Statement No. 68.		(10,062,261)
In the Statement of Activities, other postemployment benefits (OPEB) expense is recorded for the District's proportionate share of collective OPEB expense of the cost sharing defined benefit plans in which the District participates. Also included in OPEB expense are amounts required to be amortized in accordance with GASB Statement No. 75.		1,161,918
In the statement of activities, the cost of compensated absences is measured by the amounts earned during the fiscal year, while in governmental funds expenditures are recognized based on the amounts actually paid for compensated absences. This is the net amount of compensated absences earned in excess of the amount paid in the current fiscal year.		252,613
Internal service funds are used by management to charge the cost of certain activities, such as insurance, to individual funds. The net revenue of internal service funds is reported with governmental activities.		2,752,455
Change in Net Position of Governmental Activities	\$	(409,996)

The accompanying notes to the basic financial statements are an integral part of the financial statements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The Escambia County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Escambia County School District (District) is considered part of the Florida system of public education. The governing body of the District is the Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Escambia County.

Criteria for determining if other entities are potential component units which should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) Codification of Governmental Accounting and Financial Reporting Standards, Sections 2100 and 2600. The application of these criteria provides for identification of any entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the Board are such that exclusion would cause the District's basic financial statements to be misleading.

Based on the application of these criteria, the following component units are included within the Board's reporting entity:

- <u>Blended Component Unit</u>. The Escambia School District Employee Benefit Trust (Trust) has been established to administer the District's employee life, health, and dental insurance programs. Assets necessary to fund the programs are transferred to the Trust; however, under the terms of the Trust Agreement, the Board retains control of the assets. Due to the substantive economic relationship between the District and the Trust, the financial activities of the Trust are reported in the accompanying basic financial statements as an internal service fund.
- <u>Discretely Presented Component Units</u>. The component units' columns in the basic financial statements, include the financial data of the District's other component units, as follows:

The Escambia County Public Schools Foundation for Excellence, Inc. (Foundation), is a separate not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, and, as such, the Foundation is approved by the Board. The Foundation was formed to provide charitable and educational aid to the District and to receive, hold, invest, and administer property and to make expenditures for the benefit of the District, which is able to impose its will on the Foundation.

Charter schools are separate not-for-profit corporations each with a separate board of directors organized pursuant to Chapter 617, Florida Statutes, the Florida Not for Profit Corporation Act, and Section 1002.33, Florida Statutes. Charter schools operate under a charter of the sponsoring school district and are considered component units according to the interpretation of GASB Statement No. 61 by the Florida Department of Education which determined that Florida school districts are financially accountable for Florida charter schools.

Pursuant to the Florida Constitution, charter schools are public schools and the District is responsible for their operation, control, and supervision. The District has entered

into charter agreements with the following charter schools that are considered part of the District's reporting entity:

Capstone Academy Pensacola was established to provide exceptional student educational services to handicapped prekindergarten students.

Jaqueline Harris Preparatory Academy was established to provide alternate programs of education, training, and related services for elementary students who are considered "at risk" of academic failure. Jaqueline Harris Preparatory Academy, operated by New Road to Learning, Inc., is a separate not-for-profit entity.

Beulah Academy of Science, Inc., was established to provide an agriculture and science program for middle school students.

Byrneville Elementary School, Inc., and Pensacola Beach Elementary School, Inc., were established to provide education, training, and related services to elementary school students.

Note: Escambia Charter School, Inc., was closed at the end of the prior fiscal year. Due to a funding shortfall caused by an insufficient student population, it was determined by both the Board and the charter school administration that the school was unable to continue as a going concern.

Audits of the Foundation's financial statements and the charter schools' financial statements for the fiscal year ended June 30, 2019, are conducted by an independent certified public accountant and are filed in the District's administrative office at 75 North Pace Boulevard, Pensacola, Florida.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The accounting and financial reporting treatment is determined by its measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured as current financial resources or economic resources. The basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

Government-wide Financial Statements - The Government-wide financial statements are prepared under the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions in which the District gives or receives value without directly receiving or giving value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The Statement of Net Position and the Statement of Activities present financial information about the District's governmental activities. These statements include the financial activities of the government in its entirety, except for those that are fiduciary.

Governmental activities are normally supported by taxes and inter-governmental revenues. The District currently does not have any business-type activities.

The Statement of Net Position includes all assets, liabilities, and deferred outflows/inflows of resources of the District. The Statement of Activities presents a comparison between the direct expenses and program revenues for each function or program of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Depreciation expenses are allocated to functions based on actual and estimated usage of the assets in those functions.

Amounts reported as program revenues include: 1) charges for services provided to students for tuition, fees, rental, material, supplies, or other services, 2) operating grants and contributions, and 3) capital grants and contributions. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-financing or draws from the general revenues of the District.

The effects of interfund activity have been eliminated from the government-wide financial statements except for interfund services provided and used.

<u>Fund Financial Statements</u> – The Governmental Fund Financial Statements are prepared utilizing the current financial resource measurement focus and the modified accrual basis of accounting. Revenues are recognized in the accounting period in which they become susceptible to accrual, that is, both measurable and available. "Measurable" means the amount of transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Significant revenues "susceptible to accrual" include ad valorem taxes, reimbursable-type grants, and interest on investments. The District considers revenues from property taxes as available if they are collected within 60 days after fiscal year-end. Expenditures are recorded when the fund liability is incurred. However, exceptions include unmatured principal and interest on general long-term debt and accumulated sick and vacation pay, which are recorded when payment is due.

In applying the "susceptible to accrual" concept to revenues from Federal and State sources, the legal contractual requirements of the numerous individual programs are used as guidance. There are, however, essentially two types of revenues. In one type, moneys must be expended for the specific purpose or project before the District will receive any amounts; therefore, revenues are recognized based upon the occurrence of the expenditure. In the other type, moneys are virtually unrestricted as to purpose of expenditure and are usually revocable only for failure to comply with prescribed legal and contractual requirements. These resources are reflected as revenues at the time of receipt or earlier if the "susceptible to accrual" criteria are met. In all cases, moneys received before the revenue recognition criteria have been met, are reported as unearned revenue.

Agency (Fiduciary) funds are purely custodial in nature (assets equal liabilities) and as such do not have a measurement focus. Agency funds use the accrual basis of accounting to recognize receivables and payables.

The Proprietary Fund Financial Statements are prepared under the economic resources measurement focus and the accrual basis of accounting.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's internal service funds are for self-insurance (property, casualty, liability, and workers' compensation), and employee benefits (health and prescription) provided to other funds. Operating expenses for the internal service funds include salaries, employee benefits, purchased services, energy services, materials and supplies, capital outlay, and insurance claims. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

The fund statements provide information about the District's funds, including fiduciary funds. Separate financial statements for each fund category – governmental, proprietary, and fiduciary – are presented. The emphasis of fund financial statements is on major funds, each displayed in a separate column. All remaining governmental funds are aggregated and reported as other governmental funds. The District reports the following major governmental funds:

- General Fund to account for all financial resources not required to be accounted for
 in another fund, and for certain revenues from the State that are legally restricted to be
 expended for specific current operating purposes.
- <u>Special Revenue Other Federal Programs Fund</u> to account for certain Federal grant program resources.
- <u>Capital Projects Local Capital Improvement Fund (Nonvoted)</u> to account for the financial resources generated by capital outlay ad valorem property taxes based the discretionary millage rate set by the School Board.
- <u>Capital Projects Other Fund</u> to account for the financial resources generated by the local voted sales tax and various other financial resources restricted for educational capital outlay needs, including new construction, renovation, and remodeling projects.

Additionally, the District reports the following proprietary and fiduciary fund types:

- <u>Internal Service Funds</u> to account for the District's individual self-insurance programs.
- Agency Funds to account for resources of the District's pre-tax flexible benefits plan and the school internal funds, which are used to administer moneys collected at the schools in connection with school, student athletic, class, and club activities.

<u>Discretely Presented Component Units</u> – The Foundation is accounted for under the not-for-profit basis of accounting and uses the accrual basis of accounting whereby revenues are recognized when earned and expenses are recognized when incurred.

Except for the Capstone Academy Pensacola, the charter schools are accounted for as governmental organizations and follow the same accounting model as the District's governmental activities. The Capstone Academy Pensacola is accounted for under the not-for-profit basis of accounting and uses the accrual basis of accounting.

During the course of operations, the District has activity between funds for various purposes. Any residual balances outstanding at fiscal year-end are reported as due from/to other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Further, certain activity occurs during the fiscal year involving transfers of resources between funds. In fund financial statements, these amounts are reported at gross amounts as transfers in and out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Net Position / Fund Balance Flow Assumptions

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, and then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in governmental fund financial statements, it is the District's policy to use committed resources first, followed by assigned resources, and then unassigned resources as they are needed.

> Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the District's highest level of decision-making authority. The Board is the highest level of decision-making authority for the District that can, by adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, the limitation imposed by the resolution remains in place until a similar action is taken (the adoption of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the District for specific purposes but do not meet the criteria to be classified as committed. The Board has by resolution authorized the finance director to assign fund balance. The Board may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally only exist temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term, highly liquid investments with original maturities of 3 months or less. Investments classified as cash equivalents include amounts placed with the State Board of Administration (SBA) in Florida PRIME.

Cash deposits are held by banks qualified as public depositories under Florida law or through the Federally Insured Cash Account program, which complies with the provisions of Section 218.415(23), Florida Statutes, and is therefore exempt from Florida's public deposits program pursuant to Section 280.03(3)(f), Florida Statutes. All deposits are insured by Federal depository insurance, up to specified limits, or collateralized with securities held in Florida's multiple, financial institution collateral pool, as required by Chapter 280, Florida Statutes. The statement of cash flows considers cash and cash equivalents as those amounts in demand deposit accounts and all highly liquid investments with an original maturity of 3 months or less.

Investments consist of amounts placed in SBA Debt Service accounts for investment of debt service moneys, amounts placed with SBA for participation in the Florida PRIME, and those made locally. Investments made locally are reported at fair value and consist of:

- (1) Intergovernmental investment pool made up of money market mutual funds and various short-term government bond funds. The intergovernmental investment pool is reported at fair value and is described in a subsequent note on investments.
- (2) Government bonds.
- (3) Commercial paper.
- (4) Treasury bills.
- (5) U.S. Government bond funds.

The District's investments in Florida PRIME, which SBA indicates is a Securities and Exchange Commission Rule 2a7-like external investment pool, as of June 30, 2018, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost. Florida PRIME operates under investment guidelines established by Section 215.47, Florida Statutes.

> Inventories

Inventories consist of expendable supplies held for consumption in the course of District operations. Material stores, maintenance stores, custodial stores, transportation stores, fuel inventories, and purchased food and lunchroom supply inventories are stated on the average-cost method. The United States Department of Agriculture surplus donated foods are stated at their fair value, as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when used rather than purchased.

Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$5,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement should be reported at acquisition value rather than fair value at the date of donation. Interest costs incurred during the construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

<u>Description</u>	Estimated Lives
Improvements Other Than Buildings	15 years
Buildings and Fixed Equipment	20 - 55 years
Furniture, Fixtures, and Equipment	5 - 15 years
Motor Vehicles	10 - 20 years
Audio Visual Materials and Computer Software	10 - 15 years

Current fiscal year information relative to changes in capital assets is described in a subsequent note.

> Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. Bond and Certificates of Participation (COP) premiums and discounts are amortized over the life of the debt using the straight-line method. Bonds and COP payable are reported net of the applicable premiums or discounts.

In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due. Governmental fund types recognize premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued and premiums on debt issuance are reported as other financing sources, while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Changes in long-term liabilities for the current fiscal year are reported in a subsequent note.

Compensated Absences

The criteria for determining compensated absences (i.e., paid absences for employee vacation and sick leave benefit) liability are derived from Board policy, negotiated agreements, and State law. Vacation benefits are accrued as a liability as the benefits are earned if an employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate the employee for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at fiscal yearend by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. Compensated absences include applicable salary related payments for Social Security, Medicare, and retirement contributions.

In the government-wide financial statements, compensated absences are accrued as liabilities to the extent that it is probable that the benefits will result in termination payments. A liability is reported for compensated absences in the governmental fund financial statements only if they have matured (i.e., unused reimbursable leave still outstanding following an employee's resignation or retirement). The liability for compensated absences includes salary-related benefits, where applicable.

Changes in compensated absences for the current fiscal year are reported in a subsequent note.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for *deferred outflows of resources*. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense) until then.

The District has one item that qualifies for reporting as deferred outflows of resources, the deferred outflows related to pensions reported in the government-wide statement of net position. The deferred outflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68, Accounting and Financial Reporting for Pensions. The deferred outflows related to pensions will be recognized as either pension expense or a reduction in the net pension liability in future reporting years. Details on the composition of the deferred outflows related to pensions are further discussed in a subsequent note.

In addition to liabilities, the statement of net position will sometimes report a separate section for *deferred inflows of resources*. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time. The District has two items that qualify for reporting as deferred inflows of resources.

The two items reported as deferred inflows of resources are the *deferred gain on debt refunding* and the *deferred inflows related to pensions*, both reported in the government-wide statement of net position. A deferred gain on refunding results from a debt refinancing whereby the net carrying amount of the debt instrument exceeds the reacquisition price of the refunding debt. This amount is deferred and amortized over the shorter of the life of the refunded or

refunding debt. The deferred inflows related to pensions are an aggregate of items related to pensions as calculated in accordance with GASB Statement No. 68. The deferred inflows related to pensions will be recognized as a reduction to pension expense in future reporting years. Details on the composition of the deferred inflows related to pensions are further discussed in a subsequent note.

> State Revenue Sources

Revenues from State sources for current operations are primarily from the Florida Education Finance Program administered by the Florida Department of Education (Department) under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the Department. The Department performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting according to a calendar established by the Department. Such amendments may impact funding allocations for subsequent fiscal years. The Department may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the fiscal year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. State Board of Education (SBE) rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following fiscal year to be expended for the same educational programs. The Department generally requires that these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the unspent balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from FDOE. A schedule of revenue from State sources for the current fiscal year is presented in a subsequent note.

District Property Taxes

The Board is authorized by State law to levy property taxes for District school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Escambia County Property Appraiser, and property taxes are collected by the Escambia County Tax Collector.

The School Board adopted the 2018 tax levy on September 18, 2018. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1 of the year following the year of assessment. State law provides for enforcement of collection of

personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Escambia County Tax Collector at fiscal year-end but not yet remitted to the District.

Millages and taxes levied for the current fiscal year are presented in a subsequent note.

School Capital Outlay Surtax

The citizens of Escambia County, on September 5, 2006, approved a 0.5 percent school capital outlay sales surtax authorized under Section 212.055(6), Florida Statutes. The surtax was authorized for a period of 10 years, beginning January 1, 2006, proceeds of which were to be used for fixed capital expenditures or fixed capital costs associated with the construction, reconstruction, or improvement of school facilities and campuses which have a useful life expectancy of 5 or more years, and retrofitting and technology implementation and any land acquisition, land improvement, design, and engineering costs related thereto. The sales tax levy was renewed for another 10-year term beginning in January of the current fiscal year. The current term was approved by Escambia County voters during a November 4, 2014 ballot referendum.

> Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

2. CHANGE IN REPORTING ENTITY - COMPONENT UNITS

The District made the following change concerning its component units:

➤ The District terminated the charter agreement with Escambia Charter School, Inc., effective June 30, 2018. Accordingly, the Escambia Charter School, Inc., was not included as one of its charter schools during the 2018-19 fiscal year.

As a result of this change in reporting, the net position of the component units as a whole has been adjusted as follows:

Component Units' Net Position - June 30, 2018 \$8,210,760

Adjustment to Beginning Net Position:
Removal of Escambia Charter School, Inc. (116,289)

Component Units' Net Position - July 1, 2018 \$8,094,471

3. BUDGETARY COMPLIANCE AND ACCOUNTABILITY

The Board follows procedures established by State Statutes and SBE rules in establishing budget balances for governmental funds, as described below:

- Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
- Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each activity (e.g., instruction, student personnel services, and school administration) and may be amended by resolution at any Board meeting no later than the due date for the annual financial report.
- ➤ Budgets are prepared using the same modified accrual basis as is used to account for governmental funds.
- ➤ Budgetary information is integrated into the accounting system and, to facilitate budget control, budget balances are encumbered when purchase orders are issued. Appropriations lapse at fiscal year-end and encumbrances outstanding are honored from the subsequent fiscal year's appropriations.

4. INVESTMENTS

As of June 30, 2019, the District has the following investments and maturities:

	Average			Fair Value	
Investment	Maturities	Fair Value		Measurement	
State Board of Administration					
Florida PRIME (1)	29 Days	\$	3,202,110	N/A	
Debt Service Accounts	6 months		30,149	N/A	
Sales Tax Investment Portfolio					
Agency Bonds	498 Days		18,113,200	Level 2	
Certificates of Deposit	203 Days		1,008,993	Level 2	
Government Bonds	257 Days		15,078,264	Level 2	
Treasury Bills	138 Days		3,970,005	Level 2	
Commercial Paper	59 Days		9,960,269	N/A	
First American Gov Obligations (1)	18 Days		2,669,021	N/A	
Florida Fixed Income Trust (FL FIT)					
Enhanced Cash Investments	223 Days		24,472,488	N/A	
Cash Pool	113 Days		6,106,073	N/A	
Cash Pool (Series 2016)	113 Days		9,597,689	N/A	
Total Investments, Primary Government		\$	94,208,261		

Note: (1) Investments reported as cash equivalents for financial statement reporting purposes.

GASB Statement No. 72, Fair Value Measurement and Application

According to GASB 72, all assets meeting the definition of an investment should be measured at fair value, except the following:

- Nonparticipating interest earning investment contracts including non-negotiable certificates of deposit
- ➤ Investments in unallocated insurance contracts
- Money market investments and participating interest-earning investment contracts that have remaining maturity at time of purchase of 3 months or less
- ➤ Investments held by 2a-7 external investment pools
- ➤ Investments in 2a-7-like pools
- > Fully benefit-responsive synthetic guaranteed investment contracts
- > Investments in life insurance contracts not meeting the definition of a life settlement contract

In addition to expanding the definitions of fair value and investments, GASB 72 provides requirements for the valuation and disclosure of assets and liabilities reported at fair value. Governments are to use valuation techniques that are appropriate and for which sufficient data is available to measure assets and liabilities at fair value. These valuation techniques, which are inputs or data that market participants use in valuing assets and liabilities, should be applied consistently.

The District uses the market approach for fair value measurements.

GASB Statement No. 72 establishes a three-tier fair value hierarchy that prioritizes the inputs based on relative reliability and requiring all assets and liabilities valued at fair market value to be categorized each using one of the three hierarchy levels:

- Level 1 Inputs quoted prices in active markets for identical assets or liabilities. Observable markets include exchange markets, dealer markets, brokered markets, and principal-to-principal markets.
- Level 2 Inputs inputs other than quoted prices included within Level 1 that are observable for the asset or liability. These inputs are derived from or corroborated by observable market data through correlation or by other means. Examples: Quoted prices for similar assets or liabilities in active or inactive markets, credit spreads, interest rates and yield curves observable at commonly quoted intervals.
- Level 3 Inputs unobservable inputs used only when relevant Level 1 and Level 2 inputs are unavailable. Examples: Nonbinding quotes on interest rate swaps that cannot be corroborated by observable market data and financial forecasts using internal data for commercial real estate.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. In order to provide sufficient liquidity to pay obligations as they become due, the District's investment policy limits the length of investments as follows: (1)

investments of current operating funds shall have maturities of no longer than 2 years, and (2) investments of bond reserves, construction funds, and other nonoperating funds shall have a term appropriate for the need for the funds and in accordance with debt covenants, but in no event shall exceed 5 years.

- ➤ The District's investments in Florida PRIME, First American Government Obligations Fund, and Commercial Paper (CP) had weighted average maturities (WAMs) of 29 days, 18 days, and 59 days, respectively, at June 30, 2019.
- ➤ The District's investments in Agency Bonds and Government Bonds had WAMs of 498 and 257 days, respectively, at June 30, 2019.
- ➤ The District's investments in Treasury Bills had a WAM of 138 days.
- Florida Fixed Income Trust (FL FIT) had the following WAM for each portfolio:
 - FL FIT Enhanced Cash 223 days
 - FL FIT Commercial Paper (Cash) Pool 113 days

A portfolio's WAM reflects the average maturity in days or years based on final maturity or reset date, in the case of floating rate instruments. WAM measures the sensitivity of the portfolio to interest rate changes.

As of June 30, 2019, the District has the following interest rate risk by fund:

				Investment Maturities			
Investment by Fund		Fair Value	Six Months or Less		Greater than Six Months to Two Years		
Major Governmental Funds:							
General	\$	12,595,756	\$	5,077,878	\$	7,517,878	
Capital Projects - Local Capital Improvements		13,013,847		2,598,667		10,415,180	
Capital Projects - Other		68,568,509		27,828,622		40,739,887	
Nonmajor Governmental		30,149		30,149		_	
Total Investments	\$	94,208,261	\$	35,535,316	\$	58,672,945	

Note: Investments that have stable net asset values (NAVs) are considered cash equivalents for financial statement purposes.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy limits authorized investments to the SBA Local Government Surplus Funds Trust Fund Investment Pool, which is known as Florida PRIME; direct obligations of the United States Government Agencies; certain Federal Instrumentalities; interest-bearing time deposits or savings accounts in qualified public depositories, as defined in Section 280.02, Florida Statutes; repurchase agreements secured

by the collateral composed of negotiable direct obligations of the United States Government, Government Agencies, and Federal Instrumentalities that have a market value of 102 percent of the value of the repurchase agreement; commercial paper of the highest credit rating; certain Banker's Acceptances; certain highly rated state and local government taxable or tax-exempt debt; shares of open-end, no-load mutual funds registered under the Investment Company Act of 1940, provided that the portfolio invests primarily in short-term government bonds and money market funds operated in accordance with 17 CFR 270.2a-7, provided the funds are rated no lower than the credit rating applied to the United States government by Standard & Poor's, or the equivalent by another rating agency; and any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act, as provided in Section 163.01, Florida Statutes, provided that the said funds contain no derivatives. Investment in any derivative products or the use of reverse repurchase agreements requires specific Board approval.

As of June 30, 2019, the District's investments are rated as follows:

- The District's investments in First American Government Obligations are rated AAAm by Standard and Poor's (S&P) and Aaa-mf by Moody's Investors Service.
- The District's investments in the SBA Florida PRIME are rated AAAm by S&P.
- The District's investments in Agency Bonds are rated AA+ by S&P and Aaa by Moody's.
- The District's investments in Government Bonds are rated AA+ by S&P and Aaa by Moody's
- The District's investments in Treasury Bills are rated A-1+ by S&P and P-1 by Moody's.
- The District's investments in Commercial Paper are rated A-1 by S&P and P-1 by Moody's.
- The District's investments in Certificates of Participation are rated A-1+ by S&P and P-1 by Moody's.
- The District's investments in FL FIT Commercial Paper (Cash) Pool and Enhanced Cash Pool are rated AAAf/S1+ and AAAf/S1, respectively, by Standard & Poor's.
- The District's investments in the SBA Debt Service Accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by the SBA for managing credit risk for this account.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body's interest in the security; 2) if in

book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State, or by a national association organized and existing under the laws of the United States which is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's investment policy requires that securities shall be held with a third-party custodian; and all securities purchased by and all collateral obtained by the District should be properly designated as an asset of the District. As of June 30, 2019, all investments are held with an appropriate custodian or trustee or are held in accounts in the name of and belonging to the District.

All District investments are in compliance with District policy in relation to interest rate risk, credit risk, and custodial credit risk.

Concentration of Credit Risk

Concentration of credit risk is associated with potential loss of assets attributed to the portion of investment in a single issuer or issue size. The District's investment policy has established asset allocation and issuer limits according to the following investment types:

The Florida Local Government Surplus Funds Trust Fund (Florida PRIME)

Portfolio Composition: A maximum of 35 percent of available funds may be invested in Florida PRIME.

United States Government Securities

Portfolio Composition: A maximum of 75 percent of available funds may be invested in the United States Government Securities with no more than 10 percent of those funds invested in any one issue size (per CUSIP).

<u>United States Government Agencies</u>

Portfolio Composition: A maximum of 50 percent of available funds may be invested in United States Government agencies.

Limits on Individual Issuers: A maximum of 25 percent of available funds may be invested in individual United States Government agencies with no more than 10 percent of those funds invested in any one issue size (per CUSIP).

Federal Instrumentalities (United States Government sponsored agencies)

Portfolio Composition: A maximum of 50 percent of available funds may be invested in Federal Instrumentalities.

Limits on Individual Issuers: A maximum of 25 percent of available funds may be invested in individual Federal Instrumentality security with no more than 10 percent of those funds invested in any one issue size (per CUSIP).

Interest Bearing Time Deposit or Saving Accounts

Portfolio Composition: A maximum of 25 percent of available funds may be invested in non-negotiable interest bearing time certificates of deposit (CDs).

Limits on Individual Issuers: A maximum of 15 percent of available funds may be deposited with any one CD.

Repurchase Agreements

Portfolio Composition: A maximum of 50 percent of available funds may be invested in repurchase agreements excluding one business day agreements and overnight sweep agreements.

Limits on Individual Issuers: A maximum of 15 percent of available funds may be invested with any one institution.

Commercial Paper

Portfolio Composition: A maximum of 35 percent of available funds may be directly invested in prime commercial paper.

Limits on Individual Issuers: A maximum of 10 percent of available funds may be invested in any one issuer with no more than 5 percent of those funds invested in any one issue size.

Registered Investment Companies (Mutual Funds and Money Markets)

Portfolio Composition: A maximum of 20 percent of available funds may be invested in mutual funds (investing in short-term government bonds) and 75 percent of available funds may be invested in money market funds.

Limits on Individual Issuers: A maximum of 20 percent of available funds may be invested with any one mutual fund or money market fund.

Intergovernmental Investment Pool

Portfolio Composition: A maximum of 50 percent of available funds may be invested in intergovernmental investment pools.

Limits on Individual Issuers: A maximum of 25 percent of available funds may be invested with any one intergovernmental investment pool (excludes Florida PRIME).

5. RECEIVABLES

The majority of receivables are due from other agencies. These receivables and the remaining accounts receivable are considered to be fully collectible. As such, no allowance for uncollectible receivables is accrued.

6. CHANGES IN CAPITAL ASSETS

Changes in capital assets are presented in the table below.

	Balance 7-1-18	Additions	Deletions	Balance 6-30-19
GOVERNMENTAL ACTIVITIES				
Capital Assets Not Being Depreciated: Land	\$ 12,429,486	\$ 260,588	\$ 52,100	\$ 12,637,974

Total Depreciation Expense - Governmental Activities	\$	12,918,070

7. SCHOOL DISTRICT LOAN PROGRAM

In accordance with the School District Loan Program authorized by Chapter 2006-25, Laws of Florida, the District applied for and received an interest-free loan from the Florida Department of Education totaling \$2,571,706, which is included as a liability of the General Fund. The loan enabled the District to meet operating expenses while awaiting resolution of litigation regarding school property taxes for Pensacola Beach property owners. Loan provisions require District personnel to notify the Florida Department of Education within 5 business days after the resolution of the litigation. Repayment of the loan must be made within 20 business days following the resolution of the litigation or the District may submit a repayment plan not to exceed 2 fiscal years.

8. CERTIFICATES OF PARTICIPATION

The District entered into financing arrangements, characterized as lease purchase agreements, with the Florida School Boards Association, Inc., whereby the District secured financing of various educational facilities. The financing was accomplished through the issuance of Certificates of Participation to be repaid from the proceeds of rents paid by the District. The following schedule describes the current status of the principal balances of these issues at June 30, 2019:

Original			Principal				Refunded		Balance
Issue		Amount		Paid		Refunded	By Series	6-30-19	
Series 1992	\$	55,830,000	\$	15,030,000	\$	40,800,000	1996-1, 2002	\$	-
Series 1996-1		26,740,000		6,485,000		20,255,000	2005, 2006, 2011		-
Series 1996-2		21,645,000		-		21,645,000	2004		-
Series 2002		16,745,000		16,745,000		-			-
Series 2004		22,725,000		885,000		21,840,000	2014		-
Series 2005		10,000,000		10,000,000		-			-
Series 2006		10,000,000		10,000,000		-			-
Series 2011		1,124,561		1,124,561		-			-
Series 2014		19,840,000		6,365,000		-			13,475,000
	\$	184,649,561	\$	66,634,561	\$	104,540,000		\$	13,475,000

As a condition of the financing arrangements, the District has given ground leases on District property to the Florida School Boards Association, Inc. The ground leases on the property associated with the Series 1992, 1996-1, 2002, 2005, 2006, and 2011 Certificates ended on the earlier of (a) the date on which the Series 1996-1, 2005, 2006, and 2011 Certificates, and any Certificates of Participation refunding such Certificates, have been paid in full, or provision for their payment has been made, or (b) June 30, 2028. The ground leases on the property associated with the Series 1996-2, 2004, and 2014 Certificates end on the earlier of (a) the date on which the series of Certificates has been paid in full, or (b) June 30, 2022. The properties covered by the ground leases are, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the leases and to provide for the rent payments through to term, the District may be required to surrender the sites included under the ground lease agreements for the benefit of the securers of the Certificates until the end of the ground leases.

The District properties included in the ground leases under these arrangements include the following:

Certificates of Participation Series 1992, 1996-1, 2002, 2005, 2006, and 2011:

- Hellen Caro Elementary School
- C.A. Weis Elementary School
- R.C. Lipscomb Elementary School
- Jim Allen Elementary School Administrative Suite/Media Center
- Bellview Elementary School Classroom Building

- Cordova Park Elementary School Five Classroom Additions/Media Center
- Escambia Westgate Center Pre-Kindergarten Classroom Renovation
- Holm Elementary School Classrooms/Media Center
- Myrtle Grove Elementary School Classroom Addition
- Navy Point Elementary School Classroom Addition/Administrative Suite
- Pine Meadow Elementary School Media Center/Kindergarten Classrooms/Administrative Suite
- Pleasant Grove Elementary School Dining/Classroom Addition/Administrative Suite
- Scenic Heights Elementary School Pre-Kindergarten Classrooms/Media Center
- Sherwood Elementary School Pre-Kindergarten Classrooms/Media Center
- Jim C. Bailey Middle School
- Northview High School
- West Florida School of Advanced Technology (the portion formerly known as Beggs Educational Center and used primarily for instructional purposes)
- Tate High School Physical Education Facility

Certificates of Participation Series 1996-2, 2004, and 2014:

- N.B. Cook Elementary School
- Tate High School Cafeteria/Media Center Addition and Renovation/ESE/ROTC Classroom Building
- Myrtle Grove Elementary School Media Center/Classroom Building Renovation
- Navy Point Elementary School ESE Classroom Building
- Ferry Pass Middle School ESE Classroom Building

Note: Carver/Century K-8 Elementary School (Physical Education Building/Media Center/Classroom Additions), previously a part of the Series 2014 Certificates of Participation, was released from the COP Master Lease Agreement during the 2015-16 fiscal year in order to provide for the legal sale of the property to another educational institution. However, certain conditions were required of the transaction to preserve the tax-exempt status of the master lease. The sale was finalized on May 26, 2016 and the proceeds of the Series 2014 certificates allocable to the Carver/Century facilities are treated as financing the disposition proceeds rather than the facilities itself.

The lease payments are payable by the District, semiannually, on August 1 and February 1 at interest rates ranging from 4 to 5 percent. The following is a schedule by years of future minimum lease payments under the lease agreements, together with the present value of minimum lease payments as of June 30, 2019:

Fiscal Year Ending June 30	 Total	 Principal	Interest		
2020 2021 2022	\$ 4,837,000 4,838,000 4,832,875	\$ 4,270,000 4,490,000 4,715,000	\$	567,000 348,000 117,875	
Total Minimum Lease Payments Unamortized Premium	 14,507,875 1,073,717	 13,475,000 1,073,717		1,032,875	
Total Certificates of Participation	\$ 15,581,592	\$ 14,548,717	\$	1,032,875	

9. BONDS PAYABLE

SBE Bonds payable at June 30, 2019, are as follows:

Bond Type	Original Debt Issue Amount	Amount Outstanding	Interest Rates (Percent)	Annual Maturity To
State School Bonds:				
Series 2010A	\$ 225,000	\$ 165,000	3.5-5	2030
Series 2011A (Refunding)	2,625,000	250,000	3-5	2023
Series 2014A (Refunding)	229,000	140,000	3-5	2025
Series 2014B (Refunding)	627,000	5,000	2-5	2020
Series 2017A (Refunding)	812,000	758,000	3-5	2028
Subtotal	4,518,000	1,318,000		
Unamortized Premiums, Net	506,246	187,285		
Total Bonds Payable	\$ 5,024,246	\$ 1,505,285		

The various bonds were issued to finance capital outlay projects of the District. The following is a description of the bonded debt issues:

State School Bonds

These bonds are issued by the SBE on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The total revenues received in the current fiscal year were \$1,644,841, all of which was applicable to debt service. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2019, are as follows:

Fiscal Year Ending June 30	Total	Principal		 Interest
State School Bonds:				
2020	\$ 217,355	\$	158,000	\$ 59,355
2021	215,605		164,000	51,605
2022	219,405		176,000	43,405
2023	225,905		190,000	35,905
2024	155,955		128,000	27,955
2025-2028	526,175		472,000	54,175
2029-2030	 31,800		30,000	 1,800
Subtotal	1,592,200		1,318,000	274,200
Unamortized Premiums, Net	187,285		187,285	-
Total Bonds Payable	\$ 1,779,485	\$	1,505,285	\$ 274,200

Sales Tax Revenue Bonds

In November 2014, the voters of Escambia County approved a 10-year extension to the District's one-half cent sales surtax for capital outlay. The extension began on January 1, 2018, and will end on December 31, 2027. Accordingly, in order to provide financing for the construction of a new middle school and improvements to several other of the various schools, the Board issued Sales Tax Revenue Bonds, Series 2016 in the amount of \$51,910,000.

These bonds are authorized by Chapters 212 and 1001, Florida Statutes. The principal and interest on the Series 2016 Bonds are payable solely from and secured by the proceeds received by the Board from the levy and collection of the one-half cent sales surtax pursuant to Section 212.055(6), Florida Statutes. The District pledged a total of \$67,969,815 for principal and interest on the original issue during the 2015-16 fiscal year. Due to payments for normal debt service requirements, the total pledged at June 30, 2019 for principal and interest was \$51,787,300. Final debt service requirements on this bond issue will be paid on September 1, 2027. Assuming a nominal growth rate in the collection of sales tax revenues through December 2027, approximately 19.3 percent of this revenue stream has been pledged in connection with debt service on the bonds.

During the 2018-19 fiscal year, the District recognized sales tax revenues totaling \$28,220,187 and expended \$5,785,300 (20.5 percent) of these revenues for debt service directly collateralized by these revenues.

Series 2016 Bonds payable at June 30, 2019, are as follows:

Bond Type	Original Debt Issue Amount	Amount Outstanding	Interest Rates (Percent)	Annual Maturity To
Sales Tax Revenue Bonds: Series 2016	\$ 51,910,000	\$ 42,310,000	4-5	2028
Unamortized Premiums, Net	8,641,751	6,481,313		
Total Bonds Payable	\$ 60,551,751	\$ 48,791,313		

The following is a schedule by years of the future annual debt service of the Series 2016 Bonds at June 30, 2019:

Fiscal Year Ending June 30	 Total	Principal	Interest		
Sales Tax Revenue Bonds:					
2020	\$ 5,780,500	\$ 3,945,000	\$	1,835,500	
2021	5,789,800	4,105,000		1,684,800	
2022	5,769,250	4,250,000		1,519,250	
2023	5,749,625	4,435,000		1,314,625	
2022-2027	22,978,625	19,995,000		2,983,625	
2028	5,719,500	5,580,000		139,500	
Subtotal	51,787,300	42,310,000		9,477,300	
Unamortized Premiums, Net	6,481,313	 6,481,313		_	
Total Bonds Payable	\$ 58,268,613	\$ 48,791,313	\$	9,477,300	

10. CHANGES IN LONG-TERM LIABILITIES

The following is a summary of changes in long-term liabilities:

Description	Balance 7-1-18	Additions	Deductions	Balance 6-30-19	Due in One Year	
GOVERNMENTAL ACTIVITIES						
SBE Bonds Payable	\$ 1,462,000	\$ -	\$ 144,000	\$ 1,318,000	\$ 158,000	
Unamortized Premiums, Net	236,916		49,631	187,285		
Total SBE Bonds Payable	1,698,916	-	193,631	1,505,285	158,000	
Sales Tax Revenue Bonds Payable	46,105,000	-	3,795,000	42,310,000	3,945,000	
Unamortized Premiums, Net	7,201,459	-	720,146	6,481,313	_	
Total Sales Tax Revenue Bonds Payable	53,306,459	-	4,515,146	48,791,313	3,945,000	
Certificates of Participation Payable	17,550,000	-	4,075,000	13,475,000	4,270,000	
Unamortized Premium	1,431,622		357,905	1,073,717		
Total Certificates of Participation Payable	18,981,622	-	4,432,905	14,548,717	4,270,000	
Estimated Insurance Claims Payable	27,847,921	37,100,158	35,976,488	28,971,591	7,133,863	
Compensated Absences Payable	40,344,599	3,420,378	3,672,990	40,091,987	4,046,688	
Net Pension Liability	210,672,650	88,638,806	93,089,818	206,221,638	1,651,071	
Other Postemployment Benefits Payable	15,022,888	1,943,062	4,708,307	12,257,643	-	
Total Governmental Activities	\$ 367,875,055	\$ 131,102,404	\$ 146,589,285	\$ 352,388,174	\$ 21,204,622	

For the governmental activities, net pension liabilities, compensated absences and other postemployment benefits are generally liquidated with resources of the General Fund. The estimated insurance claims are generally liquidated with resources of the internal service funds.

11. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The following is a summary of interfund receivables and payables reported in the fund financial statements:

Funds		Interfund						
]	Receivables		Payables				
Major:								
General	\$	11,605,350	\$	-				
Special Revenue - Other Federal Programs		-		5,804,962				
Capital Projects - Local Capital Improvement		-		5,336,808				
Capital Projects - Other		482,254		482,313				
Nonmajor Governmental		47,921		48,060				
Internal Service		_		463,382				
Total	\$	12,135,525	\$	12,135,525				

The interfund receivables and payables represent the payment of expenditures by one fund for another fund and will be repaid within 12 months. The amounts above do not include the school activity funds.

The following is a summary of interfund transfers reported in the fund financial statements:

	Interfund						
Funds		Transfers In	T	Transfers Out			
Major:							
General	\$	13,796,004	\$	-			
Capital Projects - Local Capital Improvement		-		18,270,650			
Capital Projects - Other		-		6,161,279			
Nonmajor Governmental		10,635,925					
Total	\$	24,431,929	\$	24,431,929			

Transfers among funds were as follows: (1) Capital Outlay funds were transferred to the General Fund to reimburse eligible maintenance operational costs, payment of property insurance premiums, charter school capital outlay distributions, and Pensacola Beach ad valorem tax refunds (see Note 20) and, (2) Capital Outlay funds were transferred to Debt Service (nonmajor) funds to provide for debt service requirements for Sales Tax Revenue Bonds and Certificates of Participation.

12. FUND BALANCE REPORTING

The District does not have a fund balance policy regarding the commitment or assignment of fund balance. However, Section 1001.51, Florida Statutes, requires the Superintendent or designee to prepare the Annual Financial Report, including the Comprehensive Annual Financial Report, in accordance with generally accepted accounting principles, including the statements issued by the GASB. The Board approves the assigned fund balance.

The District reports its governmental fund balances in the following categories, as applicable:

- Nonspendable. The net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means that an item is not expected to be converted to cash. Examples of items that are not in spendable form include inventory, prepaid amounts, long-term amounts of loans and notes receivable, and property acquired for resale. The District classifies its amounts reported as inventories as nonspendable.
- Restricted. The portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance. The District classifies most of its fund balances, other than General Fund, as restricted, as well as unspent State categorical and earmarked educational funding reported in the General Fund, that are legally or otherwise restricted.

- ➤ Committed. The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the highest level of decision-making authority (i.e., the Board). Generally, such formal action by the Board would be in the form of a resolution or Board policy. These amounts cannot be used for any other purpose, unless the Board removes or changes the specified use by taking the same action it employed to previously commit the amounts. The District did not have any committed fund balances at June 30, 2019.
- Assigned. The portion of fund balance that is intended to be used for specific purposes, but is neither restricted nor committed. Assigned amounts include those that have been set aside for specific purposes, such as allocated school-based funds, specific reserves for projects and contingencies, and other designated uses. Constraints imposed for assigned fund balances do not satisfy the criteria to be classified as restricted or committed. This category also includes any remaining positive amounts, for governmental funds, other than the General Fund, not classified as nonspendable, restricted, or committed. The District also classifies amounts as assigned that are constrained to be used for specific purposes based on actions of the Superintendent and Assistant Superintendent for Finance and Business Services and not included in other categories. The District has determined a total assigned fund balance of \$23,493,626 consisting of the following: encumbered local project carryovers totaling \$1,702,434; unencumbered local project carryovers totaling \$14,812,951 and local project contingencies of \$6,978,241.
- <u>Unassigned</u>. The portion of fund balance that is the residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes. Unassigned fund balance totaled \$6,119,275 at June 30, 2019.

General Fund Minimum Fund Balance Requirement. Section 1011.051, Florida Statutes, requires that the District maintain a fund balance in the General Fund that is sufficient to address normal contingencies, and the Superintendent shall provide written notification to the Board and the Commissioner of Education if, at any time, the fund balance in the General Fund not classified as restricted, committed, or nonspendable in the approved operating budget is projected to fall below 3 percent of projected General Fund revenues. If the fund balance in the General Fund not classified as restricted, committed, or nonspendable is projected to fall below 2 percent of projected General Fund revenues, the Commissioner must determine whether the District has a plan to avoid a financial emergency, as determined pursuant to Section 218.503, Florida Statutes, or to appoint a financial emergency board operating consistent with the requirements, powers, and duties specified in Section 218.503(3)(g), Florida Statutes. The District has adopted Board policy 5.01 to maintain an assigned/unassigned fund balance ratio in the General Fund of at least 3.5 percent of general fund revenue to comply with the intent of Section 1011.051, Florida Statutes.

As of June 30, 2019, the assigned and unassigned fund balance in the General Fund totaled \$29,612,901 (9.7 percent of General Fund revenues).

13. SIGNIFICANT COMMITMENTS

Encumbrances. Appropriations in governmental funds are encumbered upon issuance of purchase orders for goods and services. Even though appropriations lapse at the end of the fiscal year, unfilled purchase orders of the current fiscal year are carried forward and the next fiscal year's appropriations are likewise encumbered.

The following is a schedule of encumbrances at June 30, 2019:

Major Funds						No	onmajor		Total	
 General	Special Revenue -		Capital Projects - Capital Projects -			Gov	ernmental	Go	overnmental	
	Other Federal		Local Capital Other		Funds			Funds		
	Programs		Improvement							
\$ 3,907,793	\$ 315,02	2	\$ 1	,808,519	\$	16,848,983	\$	488,842	\$	23,369,159

<u>Construction Contracts</u>. The following is a summary of major construction contract commitments remaining at fiscal year-end:

		Contract	(Completed		Balance
Project	Amount		to Date		Committed	
Districtwide Projects:						
J.E. Hall Center Renovations	\$	3,311,404	\$	2,848,986	\$	462,418
Mechanical and Life Safety Systems		1,929,780		1,518,515		411,265
School Specific Projects:						
New Construction - Kingsfield Elementary School		33,368,139		32,919,374		448,765
New Construction - Beulah Middle School		47,093,314		46,790,686		302,628
New Construction - Westside Elementary School		2,862,416		1,024,367		1,838,049
Brown Barge Middle School - New Gym and Track		4,907,396		1,653,759		3,253,637
Brown Barge Middle School - General Renovations		1,388,254		161,427		1,226,827
Woodham Middle School - Repurpose		9,737,114		8,409,980		1,327,134
West Floruida High School - Repurpose		2,062,820		162,963		1,899,857
Brentwood Elementary School - Covered Play Area		1,478,218		66,759		1,411,459
Tate High School - Chiller Plant		3,476,000		1,155,121		2,320,879
Lincoln Park Elementary School - General Renovations		440,650		174,721		265,929
Total	\$	112,055,505	\$	96,886,658	\$	15,168,847

Total other construction contract commitments (individually below \$250,000) amounted to \$414,968 at June 30, 2019.

14. SCHEDULE OF STATE REVENUE SOURCES

The following is a schedule of the District's State revenue for the 2018-19 fiscal year:

Source	Amount
Florida Education Finance Program	\$ 151,052,919
Categorical Educational Program - Class Size Reduction	42,406,259
Workforce Development Program	3,915,074
Best and Brightest Teacher Scholarship Program	3,011,777
Motor Vehicle License Tax (Capital Outlay and Debt Service)	1,644,841
Voluntary Pre-K Program	1,219,007
Educational Facilities Security Grant	1,388,359
School Recognition	981,092
Public Education Capital Outlay	898,479
Racing Commission Funds	446,500
Charter School Capital Outlay	375,979
Food Service Supplement	276,324
Youth Mental Health Awareness Training	222,649
Discretionary Lottery	133,344
Law Enforcement Training	85,557
Florida Student Assistance Grant	84,057
Learning for Life	60,000
State License Tax	55,512
Miscellaneous	 149,244
Total	\$ 208,295,949

Accounting policies relating to certain State revenue sources are described in Note 1.

15. PROPERTY TAXES

The following is a summary of millages and taxes levied on the 2018 tax roll for the 2018-19 fiscal year:

	Millages	Taxes Levied		
GENERAL FUND				
Nonvoted School Tax:				
Required Local Effort	4.200	\$	81,023,249	
Discretionary Local Effort	0.748		14,429,855	
CAPITAL PROJECTS FUNDS				
Nonvoted Tax:				
Local Capital Improvement	1.377		26,564,051	
Total	6.325	\$	122,017,155	

16. FLORIDA RETIREMENT SYSTEM

Pensions. In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan and the Health Insurance Subsidy (HIS) defined benefit plan and additions to/deductions from the FRS's and the HIS's fiduciary net position have been determined on the same basis as they are reported by the FRS and the HIS plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms.

Governmental Accounting Standards Board Statement No. 68. The District participates in the FRS defined benefit pension plan and the HIS defined benefit plan administered by Florida Division of Retirement. As a participating employer, the District implemented GASB Statement No. 68, Accounting and Financial Reporting for Pensions, for the fiscal year ended June 30, 2015, which requires employers participating in cost-sharing multiple-employer defined benefit pension plans to report the employers' proportionate share of the net pension liabilities and related pension amounts of the defined benefit pension plans. The District's proportionate share of the net pension liabilities at June 30, 2019, totaled \$206,221,638.

General Information about the FRS.

The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's total pension expense was \$27,350,311 for the fiscal year ended June 30, 2019.

FRS Pension Plan

<u>Plan Description</u>. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- Regular Class Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers Class Members who hold specified elective offices in local government.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Members of the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with a participating FRS employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits. The following chart shows the percentage value for each year of service credit earned:

Class, Initial Enrollment, and Retirement Age/Years of Service	% Value
Regular Class members initially enrolled before July 1, 2011	
Retirement up to age 62 or up to 30 years of service	1.60
Retirement at age 63 or with 31 years of service	1.63
Retirement at age 64 or with 32 years of service	1.65
Retirement at age 65 or with 33 or more years of service	1.68
Regular Class members initially enrolled on or after July 1, 2011	
Retirement up to age 65 or up to 33 years of service	1.60
Retirement at age 66 or with 34 years of service	1.63
Retirement at age 67 or with 35 years of service	1.65
Retirement at age 68 or with 36 or more years of service	1.68
Elected County Officers	3.00

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were as follows:

	Percent of Gross Salary			
Class	Employee	Employer (1)		
FRS, Regular	3.00	8.26		
FRS, Elected County Officers	3.00	48.70		
DROP - Applicable to				
Members from All of the Above Classes	0.00	14.03		
FRS, Reemployed Retiree	(2)	(2)		

Notes: (1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District's contributions (not including employee contributions) to the Plan for the fiscal year ended June 30, 2019 totaled \$13,874,806 which was equal to the required contributions for the fiscal year.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources

<u>and Deferred Inflows of Resources Related to Pensions</u>. At June 30, 2019, the District reported a liability of \$138,767,435 for its proportionate share of the Plan's net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the 2017-18 fiscal year contributions of all participating members.

At June 30, 2018, the District's proportionate share was 0.460707327 percent, which was 0.013912017 less than the proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized pension expense of \$22,637,050 related to the Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources		_	erred Inflows Resources
Differences between expected and				
actual experience	\$	11,755,688	\$	426,676
Change of assumptions		45,342,449		-
Net difference between projected and actual				
earnings on FRS pension plan investments		-		10,721,476
Changes in proportion and differences between				
District FRS contributions and proportionate				
share of contributions		447,604		6,314,842
District FRS contributions subsequent to				
the measurement date		13,874,806		-
Total	\$	71,420,547	\$	17,462,994

The deferred outflows of resources related to pensions, totaling \$13,874,806, resulting from District contributions to the Plan subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Amount		
\$	16,641,365	
	10,747,167	
	200,935	
	6,998,743	
	4,846,083	
	648,454	
\$	40,082,747	

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.60 percent

Salary Increases 3.25 percent, average, including inflation

Investment rate of return 7.00 percent, net of pension plan investment expense,

including inflation

Mortality rates were based on the Generational RP-2000 with Projection Scale BB.

The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Compound Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.9%	2.9%	1.8%
Fixed Income	18.0%	4.4%	4.3%	4.0%
Global Equity	54.0%	7.6%	6.3%	17.0%
Real Estate (Property)	11.0%	6.6%	6.0%	11.3%
Private Equity	10.0%	10.7%	7.8%	26.5%
Strategic Investments	6.0%	6.0%	5.7%	8.6%
Total	100.0%			
Assumed inflation - Mean			2.6%	1.9%

Note: (1) As outlined in the Plan's investment policy

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 7.0 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return. The discount rate used in the 2018 valuation was updated from 7.1 percent to 7.0 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.0 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.0 percent) or 1 percentage point higher (8.0 percent) than the current rate:

	1%		Current	1%
	Decrease (6.0%)	D	iscount Rate (7.0%)	 Increase (8.0%)
District's proportionate share of				
the net pension liability	\$ 253,256,389	\$	138,767,435	\$ 43,677,590

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

<u>Payables to the Pension Plan</u>. At June 30, 2019, the District reported a payable of \$57,247 for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2019.

HIS Pension Plan

<u>Plan Description</u>. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of

State-administered retirement systems in paying their health insurance costs and is administered by the Division of Retirement within the Florida Department of Management Services.

<u>Benefits Provided</u>. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

<u>Contributions</u>. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding 3 years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$3,461,431 the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a net pension liability of \$67,454,203 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within 1 year, net of the District's proportionate share of the HIS Plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.637315645 percent, which was a decrease of 0.02001983 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized pension expense of \$4,713,261 related to the HIS Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	 rred Outflows Resources	Deferred Inflows of Resources		
Differences between expected				
and actual experience	\$ 1,032,694	\$	114,602	
Change of assumptions	7,501,741		7,131,822	
Net difference between projected and actual				
earnings on HIS pension plan investments	40,717		-	
Changes in proportion and differences between				
District HIS contributions and proportionate				
share of HIS contributions	716,550		3,168,271	
District contributions subsequent to the				
measurement date	3,461,431		-	
Total	\$ 12,753,133	\$	10,414,695	

The deferred outflows of resources related to pensions, totaling \$3,461,431, resulting from District contributions to the HIS Plan subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Fiscal Year Ending June 30	Amount		
2020	\$	622,181	
2021		618,749	
2022		263,205	
2023		(369,036)	
2024		(1,454,804)	
Thereafter		(803,288)	
Total	\$	(1,122,993)	

<u>Actuarial Assumptions</u>. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation 2.60 percent

Salary Increases 3.25 percent, average, including inflation

Municipal Bond Rate 3.87 percent

Mortality rates were based on the Generational RP-2000 with Projected Scale BB

While an experience study had not been completed for the HIS plan, the actuarial assumptions that determined the total pension liability for the HIS plan were based on certain results of the most recent experience study for the FRS plan.

<u>Discount Rate</u>. The discount rate used to measure the total pension liability was 3.87 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index. The discount rate used in the 2018 valuation was updated from 3.58 percent to 3.87 percent.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

	1%		Current	1%
	 Decrease (2.87%)	Di	scount Rate (3.87%)	 Increase (4.87%)
District's proportionate share of				
the net pension liability	\$ 76,826,385	\$	67,454,203	\$ 59,641,947

<u>Pension Plan Fiduciary Net Position</u>. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

FRS/HIS Pension Plan - Aggregate

The aggregate amount of net pension liabilities, related deferred outflows of resources, deferred inflows of resources, and pension expense for the District's defined pension plans are summarized below:

	Pension Plan	HIS Plan	Total
Net Pension Liabilities	138,767,435	67,454,203	206,221,638
Deferred Outflows of Resources	71,420,547	12,753,133	84,173,680
Defered Inflows of Resources	17,462,994	10,414,695	27,877,689
Pension Expense	22,637,050	4,713,261	27,350,311

FRS - Defined Contribution Pension Plan

The District contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Allocations to the investment member's accounts during the 2018-19 fiscal year were as follows:

	Percent of
	Gross
Class	Compensation
FRS, Regular	6.30
FRS, Elected County Officers	11.34

For all membership classes, employees are immediately vested in their own contributions and are vested after 1 year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5 year period, the employee will regain control over their account. If the employee does not return within the 5 year period, the employee will forfeit the accumulated account balance. Costs

of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.06 percent of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided and the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

There were 1020 District participants in the Investment Plan during the 2018-19 fiscal year. The District's total contribution to the plan, including the employee portion totaled \$3,310,170 (which was equal to the required contribution for the 2018-19 fiscal year). The employer portion was \$2,438,386.

17. EARLY TERMINATION BENEFITS

Retirement Incentive. Board policy provides for the payment of retirement incentive bonuses to District personnel who retire by the end of the fiscal year in which they first become eligible under any retirement plan sponsored by a unit of Florida municipal, local, or State government and who have a minimum of 15 years of service with the District. The Retirement Incentive is equal to 25 percent of the qualified employee's gross annual salary. In addition to payments made for regular termination benefits, the District reported expenditures totaling \$265,324 during the 2018-19 fiscal year for Retirement Incentive pay.

18. OTHER POSTEMPLOYMENT BENEFITS PAYABLE

Other Postemployment Benefits (OPEB) are addressed in GASB Statements No. 74 and 75; Financial Reporting for Postemployment Benefits Plans Other than Pension Plans, and Accounting and Financial Reporting for Postemployment Benefits Other than Pensions. GASB Statement No. 74 establishes financial and reporting requirements for OPEB, while Statement No. 75 requires governments to report a liability on the face of the financial statements for the OPEB that they provide. This statement requires governments in all types of OPEB plans to present adequate note disclosures and Required Supplemental Information (RSI) about their OPEB liabilities.

<u>Plan Description</u>. The OPEB healthcare plan is a single-employer, defined benefit plan administered by the District. Pursuant to the provisions of Section 112.0801, Florida Statutes, former employees who retire from the District are eligible to participate in one of four self-funded comprehensive plans for medical and prescription drug coverage. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the plan on average than those of active employees.

Additionally, certain retirees receive insurance coverage at a lower (explicitly subsidized) premium rate than active employees. The benefits provided under this defined benefit plan are provided for a fixed number of years determined at the time of retirement based on the number of years worked for the District. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB plan does not issue a stand-alone report and is not included in the report of a public employee retirement system or another entity.

Funding Policy. Plan contribution requirements of the District are established and may be amended through recommendations of the Insurance Committee and action from the Board. The District has not advanced-funded or established a funding methodology for the OPEB costs or the net OPEB obligation. The calculations were based on July 1, 2019, data where there were 170 retirees and 21 eligible dependents receiving postemployment healthcare benefits. For the 2018-19 fiscal year, the District provided required contributions of \$526,793 toward annual OPEB costs, comprised of benefit payments made on behalf of retirees for claims expenses, retention costs, and net of retiree contributions totaling \$2,159,968, 1.0 percent of covered payroll. Required contributions are based on projected pay-as-you-go financing.

As of July 1, 2019 the following employees were covered by the benefit terms:

Inactive plan members or beneficiaries currently receiving benefits	191
Active employees	<u>5,083</u>
Total	<u>5,274</u>

Net OPEB Liability. The District's net OPEB liability was measured as of June 30, 2017 the balance of which was recognized at June 30, 2018 (the fiscal year ended June 30, 2019). The District's actuarial valuation was performed on a roll forward basis. A full valuation is performed every other year.

Actuarial Methods and Assumptions. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment and termination, mortality, and the healthcare cost trends. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. Projections of benefits for financial reporting purposes are based on the substantive plan provisions, as understood by the employer and participating members, and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and participating members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The District's OPEB actuarial valuation for the 2018-19 fiscal year used the entry age normal cost actuarial method to estimate the unfunded actuarial liability as of June 30, 2019, and to estimate the District's annual required contribution. Because the OPEB liability is currently unfunded, the actuarial assumptions included a 3.87 percent rate of return on invested assets, which is the District's long-term expectation of investment returns under its investment policy. The actuarial

assumptions also included a payroll growth rate of 3 percent per year, salary increases of 4.5 percent, general inflation is 2.5 percent, and an annual healthcare cost trend rate of 7.50 percent initially for the 2018-19 fiscal year, reduced to an ultimate rate of 5 percent for the fiscal year ending June 30, 2029. Under GASB 75 the entire amount of the unfunded OPEB liability is reported.

The long-term expected rate of return on OPEB investments was determined using the Bond Buyer 20-Bond Municipal Bond Index which is used to determine the interest rates for a new issue of general obligation bonds. The average yield drawn from the index is taken from a survey of muni bond traders. The index tracks the average yields of 20 general obligation municipal bonds of which the average rating Aa2 (Moody's) or AA (Standard & Poor's).

<u>Changes in Net OPEB Liability</u>. The following table illustrates the Net OPEB Liability under GASB 75:

	Increase (Decrease)								
	T	(a) 'otal OPEB Liability		(b) n Fiduciary et Position		(a) - (b) Net OPEB Liability			
Balance Recognized at 6/30/2018

2024		(570,534)		
Thereafter				
Total	\$	(3,693,293)		

19. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The District is self-insured for property losses, except that commercial property insurance having a number of

different deductibles, sublimits, and policy maximums has been purchased to limit the District's exposure to loss. The District provides a self-insurance program for workers' compensation, automobile liability, and general liability coverage. These activities are accounted for in a Risk Management Fund, a part of the internal service funds reported on the basic financial statements of the District. For automobile and general liability, the District generally relies upon the sovereign immunity limits of Section 768.28, Florida Statutes, which limits the District's liability to \$200,000 for each claimant and \$300,000 in any one occurrence. Workers' compensation claims, except for certain claims covered under stop-loss insurance policies purchased in prior fiscal years, are fully covered by the District.

The District also provides commercially purchased life insurance and self-insured dental, prescription drug, and health coverage to its employees, retirees, and their dependents. These activities are accounted for in the Escambia School District Employee Benefit Trust, which is reported in the internal service funds on the basic financial statements of the District. The District has entered into agreements with various insurance companies to provide specific excess coverage of health claims that exceed a stated amount per policy period. In addition, third-party administrators have been contracted to assist in the payment and/or processing of dental, prescription drugs, and health claims.

Settled claims resulting from the risks described above have not exceeded commercial insurance coverage in any of the past 3 fiscal years.

For all programs for which the District is self-insured, an undiscounted liability in the amount of \$28,971,591 (\$25,302,093 for workers' compensation, automobile and general liability claims, and \$3,669,498 for dental, prescription drug, and health insurance claims) was actuarially determined to cover estimated incurred, but not reported claims and insurance claims payable at June 30, 2019.

The following schedule represents the changes in claims liability for the past two fiscal years for the District's self-insurance program:

Fiscal Year	Al Year Beginning-of- Current-Year Fiscal-Year Claims and Liability Changes in Estimates		Claims Payments	Bal	ance at Fiscal Year-End	
2017-18 2018-19	\$	27,637,587 27,847,921	36,971,540 37,100,159	(36,761,206) (35,976,489)	\$	27,847,921 28,971,591

20. OTHER LOSS CONTINGENCY

The Escambia County Property Appraiser was involved in ongoing litigation with the Pensacola Beach Leaseholders and Residents Association regarding the appraisals on and taxability of the values of leasehold improvements and land on Pensacola Beach. During the litigation, some leaseholders have chosen to pay the assessed taxes, while others have chosen not to pay the assessed taxes pending the outcome of the litigation.

The Florida Supreme Court ruled during the 2013-14 fiscal year that the leasehold improvements are taxable. The Property Appraiser was of the opinion that the land under lease is also addressed by the Court ruling but the leaseholders disagree. In March of 2016 the Florida 1st District Court

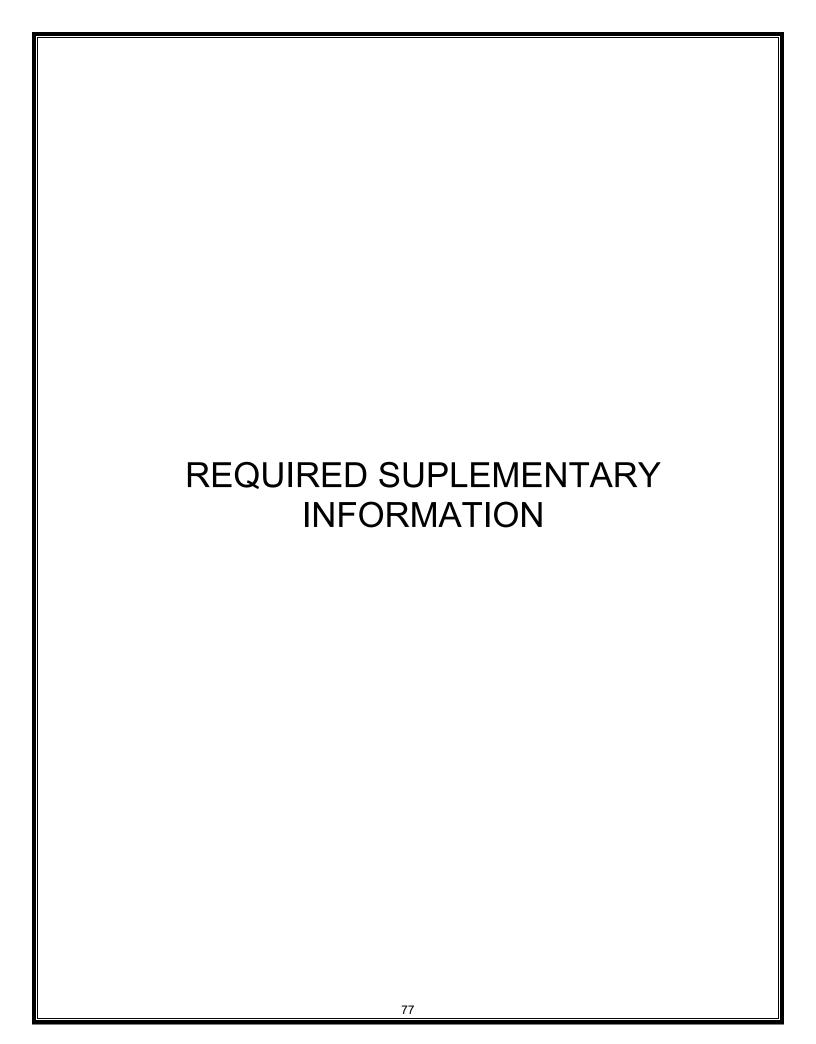

of Appeal ruled that the land was not taxable in a specific case involving a condominium development. The effect of the ruling may be far reaching for other leaseholders. Depending upon the ultimate outcome of this litigation, the District may be required to return a portion of the gross taxes that were previously collected from the leaseholders (beginning in the 2004 tax year). At June 30, 2019, the District has received \$33,605,909 in taxes collected from residential leaseholders.

During the 2018-19 fiscal year the Escambia County Tax Collector provided invoices to the District requesting tax refunds on behalf of certain leaseholders and their specific cases. These refunds were ordered as Final Judgement by the First Judicial Circuit in and for Escambia County, Florida. The District complied with the orders and refunded the invoiced amounts to the Escambia County Tax Collector. Refunds paid prior to June 30, 2019 totaled \$720,465.

In addition, subsequent to June 30, 2019, the District was invoiced periodically for settled leaseholder accounts totaling \$5,336,808. In accordance with GASB Statement No. 56 (Subsequent Events), the full amount of these invoices was also expensed at June 30, 2019 and recorded as an accrued liability. Beach tax reserves totaling \$5,767,239 were designated in both general and capital outlay funds at June 30, 2019 in anticipation of litigated refunds. There is currently one beach tax case remaining in litigation.

21. LITIGATION

The District is involved in several pending and threatened legal actions. It is the opinion of District management, after giving consideration to the District's related insurance coverage, as well as statutory limitations on uninsured losses for governmental agencies, that the amount of loss from all such claims and actions would not materially affect the financial condition of the District.

FLORIDA RETIREMENT SYSTEM PENSION PLAN - CHANGES IN BENEFIT TERMS AND ASSUMPTIONS

There were no changes in benefit terms for the fiscal year ended June 30, 2019.

Changes in Assumptions. The long-term expected rate of return, net of investment expense, decreased from 7.1 percent to 7.0 percent and the active member mortality assumption was updated. A decrease in discount rate results in an increase in pension liability.

<u>FLORIDA RETIREMENT SYSTEM HEALTH INSURANCE SUBSIDY PENSION PLAN – CHANGES IN BENEFIT TERMS AND ASSUMPTIONS</u>

There were no changes in benefit terms for the fiscal year ended June 30, 2019.

Changes in Assumptions. The municipal bond rate used to determine total pension liability increased from 3.58 to 3.87 percent. An increase in discount rate results in a decrease in pension liability.

This page was intentionally left blank.

Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds account for certain revenues derived from the State of Florida, the Federal Government, and other local and private sources that are required to finance designated activities. Activities included within the funds are as follows:

Food Service Fund - To account for and report on activities of the food service program in serving breakfast and lunch at the schools.

Debt Service Funds

The Debt Service Funds are used to account for the payment of interest and principal of the current portion on long-term debt.

State Board of Education (SBE) Bond Fund - To account for and report on payment of principal, interest, and related costs on the State school bonds issued by the SBE on behalf of the District. These bonds are payable from the District's portion of the State-assessed motor vehicle license tax.

Other Debt Service Fund - (1) To account for and report on Certificate of Participation Issues, characterized as lease-purchase agreements. (2) To account for and report on the Sales Tax Revenue Bonds, Series 2016.

Nonmajor Governmental Funds (Continued)

Capital Projects Funds

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, or for major renovation projects. Specific funding sources included herein are:

Public Education Capital Outlay Fund – To account for and report on funds received from the State for the construction and maintenance of schools.

Capital Outlay & Debt Service Fund – To account for and report on the excess dollars received through the State's Capital Outlay & Debt Service (CO&DS) program, used for construction and maintenance of schools.

Special Revenue Funds

The special revenue funds account for certain revenues derived from the State of Florida, the Federal Government and other local and private sources that are required to finance designated activities. Activities included within the funds are as follows:

Nonmajor Special Revenue Fund

Food Service Fund - To account for and report on activities of the food service program in serving breakfast and lunch at the schools.

Major Special Revenue Fund

Other Federal Programs Fund - To account for and report on activities of various Federal programs of different funding sources according to the specifications and requirements of each funding source.

Debt Service Funds

The Debt Service Funds are used to account for the payment of interest and principal of the current portion on long-term debt.

Nonmajor Debt Service Funds

State Board of Education (SBE) Bond Fund - To account for and report on payment of principal, interest, and related costs on the State school bonds issued by the SBE on behalf of the District. These bonds are payable from the District's portion of the State-assessed motor vehicle license tax.

Other Debt Service Fund - (1) To account for and report on Certificate of Participation Issues, characterized as lease-purchase agreements. (2) To account for and report on the Sales Tax Revenue Bonds, Series 2016.

Capital Projects Funds

The Capital Projects Funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings or additions to existing buildings, or for major renovation projects. Specific funding sources included herein are:

Nonmajor Capital Projects Funds

Public Education Capital Outlay Fund – To account for and report on funds received from the State for the construction and maintenance of schools.

Capital Outlay & Debt Service Fund – To account for and report on the excess dollars received through the State's Capital Outlay & Debt Service (CO&DS) program, used for construction and maintenance of schools.

Major Capital Projects Funds

Local Capital Improvement Fund - To account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, and debt service payments on certificates of participation.

Other Fund - To account for the financial resources generated by the local voted sales tax and various other financial resources restricted for educational capital outlay needs, including new construction, renovation, and remodeling projects.

Internal Service Funds

Internal service funds are nonmajor proprietary funds and are reported as governmental-type activities. They are used to account for the financing of goods or services provided by one department to other departments within the District on a cost-reimbursement basis. The following funds are included in the internal service funds:

Risk Management Fund – To account for and report on funds received for and used by the District's self-insured property, casualty, liability, and workers' compensation program.

Employee Benefit Trust Fund – To account for and report on funds received for and used to pay for life, health, and dental insurance issued under the District's self-insurance program.

Agency Funds

Agency funds are fiduciary funds used to account for resources held by the District in a trustee capacity or as an agent for individuals or private organizations. These resources include student and club activities funds that are held in trust for student, athletic, class, club activities, etc., and a voluntary employee benefits program.

Discretely Presented Component Units

The component units' columns in the basic financial statements, include the financial data of the District's discretely presented component units.

Nonmajor Discretely Presented Component Units

The Escambia County Public Schools Foundation for Excellence, Inc. (Foundation), is a not-for-profit corporation organized and operated as a direct-support organization under Section 1001.453, Florida Statutes, to raise funds, receive, hold, invest, and administer property and to make expenditures for the benefit of the District. Section 1001.453, Florida Statutes, requires the Foundation to be authorized and approved by the District. The stated mission of the Foundation is to enhance the quality of education in Escambia County Public Schools through raising and distributing funds and in-kind contributions, fostering involvement in the public system. The Foundation is considered to be a component unit of the District because the District must approve all members of the Foundation's board and the District has the ability to impose its will on the Foundation. It is considered to be a discretely presented component unit because the two boards are not the same.

Beulah Academy of Science, Inc., Jacqueline Harris Preparatory Academy, Pensacola Beach Elementary School, Inc., Byrneville Elementary School, Inc., and Capstone Academy Pensacola (Charter Schools) are separate not-for-profit corporations organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. These six charter schools operate under charters approved by their sponsor, the Board, and are considered to be component units of the District because the District is financially accountable for the charter schools as the District established the charter schools by approval of the charter, which is tantamount to the initial appointment of the charter schools, and there is the potential for the charter schools to impose specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter schools are public schools and the District is responsible for the operation, control, and supervision of public schools within the District.

STATISTICAL SECTION

Page

This part of the District School Board of Escambia County, Florida's comprehensive annual financial report presents detail information as a context for understanding what the information in the financial statements, notes disclosures and required supplementary information says about the District's overall financial health.

Contents

Financial Trend Information	132
These schedules contain trend information to help the reader understand how the District's financial performance and well-being have changed over time.	
Revenue Capacity Information	140
These schedules contain information to help the reader assess the District's most significant local revenue source, the property tax.	
Debt Capacity Information	146
These schedules present information to help the reader assess the affordability of the District's current levels of outstanding debt and the government's ability to issue additional debt in the future.	
Demographic and Economic Information	152
These schedules offer demographic and economic indicators to help the reader understand the environment within which the District's financial activities take place.	
Operating Information	156
These schedules contain service data to help the reader understand how the information in the District's financial report relates to the services the District provides and the activities it performs.

Note:

Property taxes become due and payable on November 1 of each year. A four percent (4%) discount is allowed if taxes are paid in November, with the discounts declining by one percent (1%) each month thereafter. Accordingly, taxes collected will never be 100 percent of the tax levy. Taxes become delinquent on April 1 of each year and tax certificates for the full amount of any unpaid taxes and assessments must be sold not later than June 1 of each year. Accordingly, the majority of taxes are collected in the fiscal year levied.

⁽¹⁾ Original date that the school was placed in service. This date does not reflect additions, renovations, replacements or remodeling.

⁽²⁾ Square footage includes portables and modulars in addition to permanent buildings.

⁽³⁾ Brown-Barge moved to the former Brentwood Middle facility in 2007-08.

⁽⁴⁾ Formerly known as Dixon Educational Center until the 2006-07 fiscal year.

⁽⁵⁾ George Stone Center houses adult programs that do not typically generate Full Time Enrollment (FTE) except for dual enrollment during 2015-16 school year.

Notes:

(1) Basis of Presentation

The accompanying Schedule of Federal Awards (Schedule) includes the Federal award activity of the Escambia County District School Board under programs of the Federal government for the fiscal year ended June 30, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principals, and Audit requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the District, it is not intended to and does not present financial position, changes in net position, or cash flows of the District.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(3) Indirect Cost Rate

The District has not elected to use the 10 percent de minimis cost rate allowed under the Uniform Guidance.

(4) Noncash Assistance:

- (A) National School Lunch Program Includes \$1,387,785 of donated food received during the fiscal year. Donated foods are recorded at fair value as determined at the time of donation.
- (B) <u>Impact Aid</u> Expenditures are related to grant numbers/programs as follows: 19-FL-2017-0001 (\$89,786), 19-FL-2018-0001 (113,429), and 19-FL-2019-0001 (\$370,545).

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Chairman and Members of The District School Board of Escambia County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District School Board of Escambia County, Florida (the "District") as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 13, 2019. Our report includes a reference to other auditors who audited the financial statements of the discretely presented component units, as described in our report on the District's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Pursuant to provisions of Chapter 10.800, *Rules of the Auditor General*, we reported certain matters to management of the District in a separate management letter and Independent Accountant's Report dated December 13, 2019.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Chairman and Members of The District School Board of Escambia County, Florida

Report on Compliance for Each Major Federal Program

We have audited the compliance of the District School Board of Escambia County, Florida (the "District") with the types of compliance requirements described in the U.S. Office of Management and Budget ("OMB") *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2019. The District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations*, Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2019.

Report on Internal Control over Compliance

Management of the District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to in the first paragraph. In planning and performing our audit of compliance, we considered the District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the basic financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the District as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our report thereon dated December 13, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. Our report on the basic financial statements included disclosures regarding our reference to the reports of other auditors. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis, as required by the Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from, and relates directly to, the underlying accounting and other records used to prepare the financial statements.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance (Cont.)

The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

INDEPENDENT AUDITOR'S MANAGEMENT LETTER

Chairman and Members of The District School Board of Escambia County, Florida

Report on the Financial Statements

We have audited the financial statements of the District School Board of Escambia County, Florida (the "District") as of and for the year ended June 30, 2019, and have issued our report thereon dated December 13, 2019.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. Code of Federal Regulations, Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards ("Uniform Guidance"); and Chapter 10.800, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and on Internal Control over Compliance and Report on the Schedule of Expenditures of Federal Awards Required by the Uniform Guidance, Schedule of Findings and Questioned Costs, and our Independent Accountant's Report in accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.800, *Rules of the Auditor General*. Disclosures in those reports and schedule, which are dated December 13, 2019, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.804(1)(f)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

Financial Condition and Management

Section 10.804(1)(f)2., Rules of the Auditor General, requires us to communicate whether or not the District has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of specific condition(s) met. In connection with our audit, we determined that the District did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Financial Condition and Management (Cont.)

Pursuant to Sections 10.804(1)(f)5a. and 10.805(7), *Rules of the Auditor General*, we applied financial condition assessment procedures. It is management's responsibility to monitor the District's financial condition, and our financial condition assessment was based, in part, on representations made by management and the review of financial information provided by the same.

Section 10.804(1)(f)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In conjunction with our audit, we did not have any such recommendations.

Transparency

Section 10.804(1)(f)6., *Rules of the Auditor General*, requires that we report the results of our determination as to whether the District maintains on its website the information specified in Section 1011.035, Florida Statutes. In connection with our audit, we determined that the District maintained on its website the information specified in Section 1011.035, Florida Statutes.

Additional Matters

Section 10.804(1)(f)4., *Rules of the Auditor General*, requires that we address noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, federal and other granting agencies, the District School Board members, and applicable management and is not intended to be, and should not be, used by anyone other than these specified parties.

MOORE STEPHENS LOVELACE, P.A.

INDEPENDENT ACCOUNTANT'S REPORT

Chairman and Members of The District School Board of Escambia County, Florida

We have examined the District School Board of Escambia County, Florida's (the "District") compliance with the requirements of Section 218.415, Florida Statutes, during the fiscal year ended June 30, 2019. Management is responsible for the District's compliance with those requirements. Our responsibility is to express an opinion on the District's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the District complied with those requirements. An examination involves performing procedures to obtain evidence about the District's compliance with those requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of noncompliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion. Our examination does not provide a legal determination on the District's compliance with specified requirements.

In our opinion, the District complied, in all material respects, with the aforementioned requirements for the fiscal year ended June 30, 2019.
