

Agenda Item Details

Meeting	Feb 21, 2023 - REGULAR MEETING AGENDA (5:30 PM)
Category	44. Internal Auditing
Subject	A. School Internal Accounts Audit Reports
Type	Action
Fiscal Impact	No
Budgeted	No
Recommended Action	Acceptance of the school internal accounts audit reports.

Each year, we audit the internal accounts of the schools. As part of this process, a sample of schools receive audits with full procedures (financial and compliance), with the remaining schools receiving audits with limited procedures. Audits receiving full procedures are presented to the Board individually. Audits receiving limited procedures are included in the District-wide report. All audited schools are then combined into a District-wide audit report on schools internal accounts. These reports have been presented to and accepted by the Audit Committee, a standing committee of the Board. The reports are being presented to the Board for their review and entry into the minutes.

Internal Audit Intern

Preface

The Office of Internal Auditing serves to improve the fiscal accountability and enhance the public's perception of the management and operations of the Escambia County School District. This engagement strives to meet those objectives.

Audits, reviews, and other engagements are determined through a District-wide risk assessment process, and are incorporated into the annual work plan of the Office of Internal Auditing, as approved by the Audit Committee. Other assignments are also undertaken at the request of District management.

This engagement was conducted with the full cooperation of Navy Point Elementary School staff and other District personnel.

Any recommendations included in this engagement are designed to improve operations and serve as the basis for informed discussions related to policies and procedures.

This engagement was conducted in accordance with the International Standards for Professional Practice of Internal Auditing, as promulgated by the Institute of Internal Auditors.

We thank the principals, assistant principals, bookkeepers, secretaries, and various support personnel throughout the District for their cooperation and commitment.

Executive Summary

Navy Point received a full audit for the 2021-2022 fiscal year.

Our office audits the internal accounts of the District’s schools annually. The authority to conduct these audits is granted by the School Board of Escambia County in the Charter for the Office of Internal Auditing.

These audits are conducted on a rotating basis with a sample of schools receiving “full” audits each year, and the other schools receiving “limited” audits. For each full audit, extensive testing procedures are applied to internal funds accounts. Limited audits include cash procedures and reconciliation to independent bank confirmations. For the 2021-2022 fiscal year, Navy Point Elementary School (Navy Point) received a full audit. This report documents the results of the audit.

Two adjusting journal entries were recommended.

The purpose of our audit was to determine whether the financial information reported in the internal accounts reconciles with bank statements and corresponding independent bank confirmations, and to determine compliance of transactions included in those same internal accounts with the governing provisions of Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. We also sought to determine whether any instances of non-compliance were severe enough to render the financial information reported by the school unreliable. We believe our audit provides a reasonable basis for our opinion, findings, and recommendations.

Our audit procedures indicated matters that required adjustment of the school’s records. two journal entries were necessary:

- To record unrecorded interest for the school’s two CDs.

Our testing resulted in 3 audit findings.

Our testing resulted in three audit findings:

- Purchases were made without prior written approval.
- There was no evidence of receipt of goods verification on items shipped to the school.
- Deposits were not properly handled.

The school’s overall fund balance as of June 30, 2022 was \$58,889.54.

The overall fund balance reported by the school at June 30, 2022 was \$58,889.54. We have determined that the financial information reported by the school reconciles with bank statements and independent bank confirmations.

The majority of transactions included in the school’s internal accounts were processed in accordance with applicable policies and procedures.

In our opinion, the majority of transactions included in the school’s internal accounts were processed in accordance with all applicable Florida Statutes, State Board of Education rules, and policies and procedures of the School Board.

We have also determined that the instances of non-compliance noted above and elsewhere in this report do not have a material effect and are not severe enough to render the financial information unreliable.

This report contains recommendations. The Executive Summary is intended to highlight the various aspects of the report. The full report should be read to understand the basis of our recommendations. We will follow-up on these recommendations approximately 90 days after the school's exit conference.

Background

Each year, our office audits the District's schools' internal accounts. The authority to conduct these audits is granted by the School Board of Escambia County in the Charter for the Office of Internal Auditing.

School internal funds are defined in the Internal Funds Policy Manual (the Manual) as "all monies collected and disbursed by school personnel within a school, for the benefit of the school, or a school sponsored activity." As further explained in the Manual, "School internal funds shall be used to supplement activities approved by the school board when the District budgetary funds are not available or have been exhausted." More plainly, internal funds include everything from money found on campus to collections from ticket sales for athletic events.

Each year, District schools receive either a "full" audit (including all procedures listed in the Methodology section below), or a "limited" audit, where only certain procedures are performed (such as obtaining third-party confirmation for all cash and investment accounts and reconciliation of bank statements and confirmations). For the 2021-2022 fiscal year, Navy Point received a full audit.

Outside support organizations are not included in this report and are not audited by our office.

Outside support organizations (school booster clubs and parent teacher associations) affiliated with this school that operate independent of a school's internal accounts **are not included** in this report and **are not audited** by the Office of Internal Auditing.

Navy Point last received a full audit in the 2018-2019 fiscal year. There were two matters that rose to the level of audit findings. There were findings related to receipts not being properly recorded, and proper language not being present in donation request letters, which were determined to be addressed adequately during a subsequent follow-up audit.

School Administration has been consistent for several years.

The school has had the same principal and bookkeeper in place since the previous audit.

Objective

The purpose of our audit was to determine whether the financial information contained in the internal accounts reconciles with bank statements and corresponding independent bank confirmations, and to determine compliance of transactions included in those same internal accounts with the governing provisions of Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. We also sought to determine whether any instances of non-compliance were severe enough to render the financial information unreliable.

We have conducted our audit in accordance with the International Standards for the Professional Practice of Internal Auditing promulgated by the Institute of Internal Auditing, and have planned and performed our audit to obtain reasonable assurance that transactions were made in accordance with applicable policies and laws and that the financial information presented is reliable.

We believe our audit provides a reasonable basis for our opinion, findings, and recommendations.

Scope

The State Board of Education Redbook, Chapter 8, Section I, 1(b) states that the District School Board is responsible for the administration and control of school's internal accounts and in connection therewith shall provide an audit of those accounts. Pursuant to this rule, we have audited the financial transactions of the internal accounts of the school as of and for the fiscal year ended June 30, 2022. These accounts are the responsibility of the principal of that school.

Methodology

The audit consists of three phases: planning, fieldwork, and reporting.

Each audit consists of three phases, containing specific steps to ensure it is done in accordance with professional standards and current accepted practice.

The Planning Phase

The planning phase serves as the initial stage of an audit, where the auditor determines which schools are audited, ensures his or her independence, assesses the overall control environment and risk factors, and selects the samples of transactions to be tested.

No known conflicts of interest were identified.

Control risk for Navy Point has been assessed at moderate.

For our purposes, exceptions of greater than or equal to 20% of the total population may exist

School Sample

Rather than auditing 100% of schools each year, a system of rotation is utilized that is based primarily on school classification (i.e., elementary, middle, high).

Ensuring Independence

An independence statement is completed for each school. This statement contains the signature of each auditor certifying that there are no conflicts of interest and that they are free from bias. **No known conflicts were identified.**

Control Risk Assessment

At the beginning of each audit, the two prior audits and work papers, as well as any follow-up audits, are reviewed. We also determine whether there have been any significant personnel changes (i.e., principal, bookkeeper).

Each school’s bookkeeper and principal are given internal control questionnaires to complete prior to their audit beginning. We review the responses, and discuss any items of concern with the appropriate staff. These questionnaires represent only a portion of our assessment of the overall control environment.

Based on our experience with the school, control risk is assessed at moderate. Therefore, our audit procedures are limited to those in the audit program. If control risk is assessed at a level higher than moderate, additional procedures may be performed.

Transactional Samples

Statistical sampling for attributes has been chosen. This method allows conclusions to be drawn about the population based on statistical inference. If after testing we determine the sample does not provide adequate coverage of the total population, auditor judgment and discussion with the Director of Internal Auditing are used to determine whether additional sampling methodologies are necessary (judgmental sampling, whole population, etc.).

The Fieldwork Phase

The fieldwork phase involves transactional testing of the school’s internal accounts. The items in each of our samples are tested for compliance with applicable Florida Statutes, State Board of Education Rules, Board Policies, contract terms and conditions, and grantor restrictions.

While performing our testing, a percentage of transactions is allowed to contain compliance violations before it is determined to be an audit finding. For our purposes, an audit finding is a recurring issue that is present in greater than or equal to 20% of the sample. In addition, due to seriousness or materiality, a single compliance violation could also result in an audit finding.

before an audit finding is issued.

Upon the completion of fieldwork, exit conferences to discuss the results of the audit are conducted with principals and secretaries/bookkeepers, if necessary.

The Reporting Phase

Upon the completion of the planning and fieldwork phases of an audit, the results of those phases are compiled into an easily readable and understandable format (i.e., the audit report). The report is presented to, and approved by, the Audit Committee and the School Board at the end of each audit cycle.

Financial information from full audits is combined with information from limited audits and compiled into a District-Wide Report on Internal Accounts.

Detailed Results

Summary of Fund Activity	
Beginning Cash Balance, 7/1/2021	\$ 48,607.96
Total Receipts	24,977.25
Total Disbursements	(3,037.75)
Total Net Journal Entries	(11,657.92)
Ending Cash Balance, 6/30/2022	\$ 58,889.54
Audit Adjustments	-
Ending Fund Balance, 6/30/2022, Per Skyward	<u>\$ 58,889.54</u>
Cash Balance per Confirmation(s)	\$ 58,889.54
Outstanding Deposits	-
Outstanding Checks	-
Other Reconciling Items	-
Ending Fund Balance, 6/30/2022, Per Confirmation(s)	<u>\$ 58,889.54</u>

General Ledger Review

Throughout the year and prior to the school’s closing of their records at year end, we may review various reports, transactions, and supporting documentation of the school. The purpose of this review is to recommend adjusting journal entries, reclassifications, or other necessary actions which we feel will result in more accurate reporting and/or compliance with established rules, policies, and procedures. Any recommended entries or actions are traditionally completed prior to the close of the school’s records, and are therefore included in the reported June 30 financial information, unless otherwise indicated.

Two adjusting journal entries were recommended.

As a result of our fieldwork, two additional adjusting journal entries were recommended:

- To record unrecorded interest related to the A1115.01 investment account, we recommended a journal entry be processed for \$10.07.
- To record unrecorded interest related to the A1115 investment account, we recommended a journal entry be processed for \$3.03.

After fieldwork, but prior to the issuance of this report, the school implemented our recommendations to process all journal entries mentioned above.

One finding related to lack of prior written approval.

Findings

Prior Written Approval

Our testing indicated purchases were made prior to the principal’s written approval date, as evidenced on the approval forms for both check requests and credit card purchase requests.

The Internal Funds Policy Manual gives specific guidelines regarding the prior approval of purchases. Section VIII, A.1 of the Manual states, “All disbursements require **prior written** approval of the Principal or his/her designated representative. ‘Prior written approval’ may consist of a properly completed Purchase Requisition/Request for Purchase Order. This must be done **BEFORE** the item is ordered and funds are obligated.” In the case of credit card purchases, the Request Purchase Utilizing Purchasing Card approval form should be used.

See our recommendation in the Recommendations section below.

One finding related to lack of evidence of receipt of goods.

Evidence of Receipt of Goods

Our testing indicated invoices/packing slips used as supporting documentation for expenditures did not include evidence indicating receipt of goods. This evidence would include a signature and initials indicating verification of the quantity of the items ordered, and a date indicating when the goods were received.

The Internal Funds Policy Manual gives specific guidelines regarding documentation for expenditures. Section VIII, D.4, (e) of the Manual states, “When the items purchased are received, the goods should be checked to ensure the items are correct and not damaged. The person receiving the items should initial and date the receiving slip or invoice to document their review and that all items ordered were received.”

See our recommendation in the Recommendations section below.

One finding related to improper handling of deposits.

Deposits – Properly Handled

Our testing indicated deposits did not include a separate deposit slip for each full day’s collections.

The Internal Funds Policy Manual provides specific guidelines regarding deposits. Section VI, C of the Manual states, "...Total the actual amount of cash and checks on hand. Print the Bank Deposit Journal...The total of cash, checks and money orders on hand and the total on the Bank Deposit Journal (*reports total per day*) should match. Prepare a bank deposit slip in duplicate."

Section VI, C.3 of the Manual states, "The cash receipt, generated from the internal funds' software, post-date should be the bookkeeper's date listed at the bottom of the MCF, where he/she signs." Keep in mind Skyward is date driven and there should be a separate deposit slip for each unique date. Meaning, everyday should have its own deposit slip regardless if you go to the bank or not. Most schools will run a deposit journal report at the end of the day; this report should equal the total on your deposit slip for the end of that day."

See our recommendation in the Recommendations section below.

Opinion

Our opinion is divided into two major areas: whether or not the financial information reported by the school reconciles with corresponding bank statements and independent bank confirmations; and an assessment of the compliance of transactions included in the internal accounts with the governing provisions of Florida Statutes, State Board of Education rules, and policies and procedures of the School Board. An overall assessment is also made as to whether any instances of non-compliance were severe enough to render the financial information unreliable. We believe our audit provides a reasonable basis for our opinion, findings, and recommendations.

The financial information reconciled with bank statements and independent confirmations.

We have determined that the financial information reported reconciles with bank statements and independent bank confirmations.

The majority of the school's transactions were processed in accordance with all applicable policies and procedures.

In our opinion, the majority of transactions included in the school's internal accounts were processed in accordance with all applicable Florida Statutes, State Board of Education rules, and policies and procedures of the School Board.

We have also determined that the instances of non-compliance noted above and elsewhere in this report do not have a material effect and are not severe enough to render the financial information unreliable.

Recommendations

Review and instruct staff on policies and procedures related to prior written approval for expenditures.

Prior Written Approval

In an effort to address purchases made prior to receiving written approval from the principal/designee, **we recommend the principal and the bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper procedures of obtaining prior written approval for expenditures.**

Review and instruct staff on policies and procedures related to evidence required to indicate receipt of goods.

Receipt of Goods

In an effort to address the lack of proper evidence for receipt of goods, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual and instruct staff on the proper procedure of documenting receipt of goods.**

Review policies and procedures related to the handling of deposits.

Handling of Deposits

In an effort to address the improper handling of deposits, **we recommend the principal and bookkeeper review the Internal Funds Policy Manual on the proper procedures related to the proper handling of deposits.**

We will follow-up on these recommendations approximately 90 days after the school's exit conference.

Memorandum

To: David J. Bryant, Director
Director of Internal Auditing

From: Dr. Monica Ford-Harris, Principal *MFH*
Navy Point Elementary School

Date: December 5, 2022

Subject: Audit of School Internal Accounts Findings (2021-2022)

During the 2021-2022 audit of Navy Point's internal accounts three findings were noted.

- Purchases were made without prior written approval
- There was no evidence of receipt of goods verification on items shipped to the school
- Deposits were not properly handled

The bookkeeper/secretary keeps a folder of documents needing the principal's signature. There are times when I may have the folder for a couple of days before signing items and I will use the actual date of signing. This is due in part to helping cover classes where we do not have teachers on top of the normal day to day tasks. In the future, I will build in 5-10 minutes per day just for signing of documents.

Most receipts contained initials from our Media Specialist, as she receives the most items throughout the school year. Moving forward, the bookkeeper/secretary or I will be responsible for checking each receipt for initials.

During our 2018-2019 internal audit exit conference, the bookkeeper/secretary and I left with the understanding that we could combine deposits received on multiple dates. However, the journal entry in Skyward would have to be completed on the actual date the funds and money collect form were received. After discussion with Mrs. Lane on November 28, 2022, we will make sure that the date in Skyward matches the date on the money collected form. The deposit dates will reflect those same dates for each separate date.

As principal at Navy Point, I am committed to ensuring that the noted corrections are made.

Sincerely,

Monica Ford-Harris

Monica Ford-Harris, Principal
