The following technical specifications detail recommended hardware and software requirements to support College Success® . For technical support call 877-614-6105 or email support at collegesuccess@mccanntesting.com. Additional technical information can be accessed by clicking on "Is my computer ready" located on the College Success log on screen.

College Success® Network & Workstation Technical Requirements	
Platform (Operating System)	Windows 8, Windows 8.1, Windows 10. Mac 0S X 10.8 or higher
Browser Type and Versions	**PC:** IE® 9+, Firefox® 41+, Chrome 50+ or currently supported versions. **MAC:** Firefox® 41+.0, Safari 8+, Chrome 50+ or currently supported versions.
Memory (RAM)	4 GB (64-bit) or higher. Memory (RAM) Available memory should meet or exceed the minimum required by the user's operating system and browser.
Bandwidth	30 Kbps of dedicated bandwidth to the Internet and back for EACH workstation is recommended. For consistent testing experience McCann recommends network support such that no item takes longer than 2-3 seconds to load. The practice test can use used to measure item load time. https://college.measuredsuccess.com/mscollege/practiceTest2/
Resolution	1024x768 resolution or better. Smaller screens sizes and non-standard screen resolutions may require additional user scrolling or restrict the readability of text.
Pop-up blocker	Browser set to allow all pop-ups. https://college.measuredsuccess.com , and IP 199.7.240.25 should be added to the pop-up blocker "allowed" list.
Workstation Cookies	Cookies should be set to "accept all cookies" for https://college.measuredsuccess.com
Workstation cache	Cache should be set to the lowest possible setting that can be used for your specific computer or network.
Network proxy, Firewall, Security, Content filters	Set to bypass the following: https://college.measuredsuccess.com and 199.7.240.25. TCP/Proxy servers and firewalls configured to allow unrestricted http on port 80 and https on port 443 to the Internet and also to permit response traffic. Filtering/Caching Software (i.e. Deep Freeze). While Deep Freeze or other caching software is used to save bandwidth, it is not recommended on testing computers. If enabled, the software should bypass filtering and/or caching of the domain and IP addresses listed above. Testing computers should have cache set to the lowest possible setting and cookies set to "accept all cookies."
Network Proxy and Authentication Settings	The session time-out value should be set to be at least equal to the length of the test or a minimum of 90 minutes.
JavaScript and Active Controls	Browsers must have JavaScript and Active Controls enabled
Adobe® FLASH Player	Adobe FLASH Player 22 or higher. Flash Player is needed ONLY for tests with audio items. This includes ESL Listening tests.
Adobe® Acrobat	Adobe Reader 6.0+
Vanguard®	VanGuard® secure browser is optional for testing. Documentation is available at https://college.measuredsuccess.com/mscollege/vanguard/collegesuccess.jsp Chromebooks do NOT support Vanguard.
Additional Information	Sound card and headphones are required for ESL Listening and other audio tests. JAWS version 17 for Windows Screen Reader Software. www.freedomscientific.com/Downloads/JAWS/JAWS-System-Requirements
